OFFICE OF THE COMPILER, MYSORE GAZETTE.

NOTICE.

1. The *Mysore Gazette* is published at Bangalore every Thursday. Matter for publication in the Gazette is often sent late to the Press. This involves considerable inconvenience to the Press and expense to Government. All matter intended for publication in Parts II, III, IV, V and VI should therefore reach this office not later than Tuesday noon, and that for Part I not later than the forenoon of Wednesday, for the following Thursday's issue of the Gazette.

2. Spare copies of notifications, etc., are often asked for long after their publication, when the matter has been broken up, necessitating its resetting and thereby causing inconvenience to the Press and waste of money. When spare copies are wanted, a note to that effect, stating the number of copies, should be made at foot of such manuscript. If spare copies exceeding 100 in number are required, the department concerned should supply the required quantity of paper.

3. Matter sent for insertion in the Gazette will be published only once.

4. Applications for the supply of the Gazette on *Public Service* should be made to the Chief Secretary to the Government of Mysore.

5. The English or the Kanarese portion of the *Mysore Gazette*, consisting of Parts I, II, III and V only, will be supplied to the Members of the Representative Assembly during their tenure of office as such Members. Shanbhogs, Patels, Nad Patels and Shekdars within the State at *half* rates on production of a certificate from the Amildar of the taluk to the effect that such applicant is *bona fide* on duty at the time. Such subscribers will please note that the Gazette cannot be had *in separate Parts* at concession rates. Those who pay Rs. 2 per annum will have Parts I, II, III and V only and those who require the other Parts will have to pay the *full* subscription fixed for the Part or Parts wanted; but those who pay Rs. 4 will get the entire copy of the Gazette.

6. As Government Treasuries in Mysore are authorized to receive and credit Gazette subscriptions as well as publication charges remitted by Courts or private parties, all such moneys should be sent to Treasuries and only Treasury receipts forwarded to this office. No money orders or cash will be received by the undersigned except from parties outside the State.

7. Much inconvenience is caused to this office by subscribers omitting to give their full and correct addresses and writing illegibly on the money order coupons. They are requested to insert invariably the name of the Post Office to which their copy should be sent.

8. Communications on post cards or on paper less than quarter sheet of foolscap, will not receive attention; and no communication should be sent on Government Service by private parties.

9. An efficient system of check and counter-check is maintained over the despatch of Gazette copies forwarded through post. Duplicates cannot be supplied in any case of non-delivery.

10. Complaints regarding non-receipt of the Gazette should be forwarded to the undersigned within a week after the date on which it is due.

11. The revised rates of subscription to the Gazette, which are payable *in advance*, are as follow:—

PART I—Section 2.

GENERAL.

No. G. 27033—*P. P.* 209-18-2, *dated* 31*st May* 1919.

The following Proclamation by Great Britain to the people of Afghanistan is hereby republished for general information :—

"O brave and honest people of Afghanistan :

Be it known that from of old there has existed friendship and alliance between Great Britain and Afghanistan. In the days of your fathers, when Russia began to oppress Afghanistan, Great Britain intervened at Amir Abdur Rahman's request, and after great trouble and expense and by threatening Russia with war, forced Russia to stop her oppressions and cease from further interference with Afghanistan's independence. Thus was the friendship between Afghanistan and Great Britain cemented. In proof of their friendship, Great Britain gave Amir Abdur Rahman cannons and rifles and ammunition and a large subsidy, so that he might make Afghanistan strong and defend her independence against Russia. Putting his trust in Great Britain and realising that their enemies were his enemies, Amir Abdur Rahman made friendly treaties with Great Britain. He thereby strengthened his kingdom and brought peace to the whole country. And whenever he was in any difficulties it was to Great Britain that he turned for support.

His-son, Amir Habibulla Khan, faithfully ratified the treaties which his father had made and held firm to the established friendship with Great Britain. When the whole world was embroiled in the recent war, he followed the wise advice of Great Britain and so saved his people from the horrors of war. Yet there were even then many evilly disposed intriguers who sought to drive Afghanistan into a war which would have annihilated kingdom and people. Great Britain rewarded Amir Habibulla Khan's loyalty to his treaty by increasing his subsidy and presenting him with a crore of rupees and looked forward to even closer friendship after the war. And from that war, which destroyed nation after nation, Great Britain emerged victorious and more powerful than ever.

When Amir Habibulla Khan was foully murdered, Great Britain was filled with horror and grief, and public mournings were ordered throughout the length and breadth of India. When Amanulla Khan announced his accession, Great Britain assured him in writing of their friendship and counselled him to follow in the path of his grand-father and father and thus bring peace and prosperity to his country. At first Amanulla Khan reciprocated this friendship, and sent a new envoy to India with a letter fully of friendly sentiments. But soon afterwards, when murmurings arose among his people over his action in acquitting some of his father's murderers and condemning others without a trial according to Shariat, he sought to stay the murmurings against him by stirring up hostility against Great Britain. He thereby jeopardized the lives and properties of the people of Afghanistan merely to serve his personal edns and to save his own throne. Nor did he shrink from breaking the ordinance of the Holy Koran which says "Surely Allah enjoins the doing of justice and doing of good (to others) and the giving to the Kindred, and he forbids indecency and evil and rebellion; he admonishes you that you may be mindful. And fulfil the covenent of Allah when you have made a covenent, and do *not break the oaths after making them fast, and you have indeed made Allah a surety for you; surely Allah knows what you do".

* Holy Koran, Sura An-Nahl (The Bee) Chapter XVI, Part XIV, Section 13, Verses, 90, 91.

If the people of Afghanistan held Amanulla Khan in this mad course (which God forbid), they will only bring ruin upon themselves, for Great Britain will be obliged to take stern measures against all evil doers. The futility of the ambitions of this ill-starved youth has already been demonstrated in front of Dakka. For his army has already been put to flight and his guns have been captured by the advance guard of the vast army which Great Britain is now assembling.

But will the peoples of Afghanistan allow this inexperienced youth, false to the memory of his martyred father false to the interests of his country, false to the dictates of the Holy Koran, to bring calamity upon the brave peoples and fair country of Afghanistan? God forbid!

It is now for you, O wise peoples of Afghanistan, to decide. Shall a head strong youth rob you of the countless blessings which Abdur Rahman and Habibulla secured for you by friendship with India? Hitherto your traders have been coming to India in their thousands, and your Powindahs in their tens of thousands, to trade and graze their herds, one and all enjoying perfect freedom of movement, perfect freedom of religion, under the protection of Great Britain. Are your traders now to be ruined? Are you and your families to go without the clothes and other necessaries and comforts of life which need to be brought from India? Are your camels to be debarred from their winter grazing grounds and perish? The decision rests with you. For it is the one desire of Great Britain to see Afghanistan once again peaceful and prosperous, free and independent, under a wise Amir, as mindful of the welfare of his country and as friendly to Great Britain as Abdur Rahman and Habibulla of blessed memory.

May God help the peoples of Afghanistan to take the right path and that speedily.

CHELMSFORD,
Viceroy and Governor-General of India.

No. G. 26257 (1)—P. P. 205-18-4, dated 22nd May 1919.

FINANCIAL.

No. Fl. 5825—G. F. 119-17-2, dated 26th April 1919

The following terms are offered to holders of the Mysore State Loan of 1906.

(1) All promissory notes of the Mysore State Loan of 1906, now carrying interest at 4 per cent per annum will, at the option of the holder, be converted into new promissory notes of an equal amount carrying interest at 5½ per cent with effect from 1st October 1919.

(2) The new promissory notes will be repayable at par after 25 years from 1st October 1919. Government however reserve the right of repaying at par at any time after ten years after reissue subject to three months' previous notice being given.

(3) Those who desire to avail themselves of the privilege of conversion should tender their notes for conversion not later than the 31st July 1919, when interest will be paid on them at 4 per cent up to the 30th September 1919, inclusive and new 5½ per cent notes bearing interest from 1st October 1919, will be issued in lieu of them, the Comptroller will issue subsidiary instructions for the guidance of holders of paper and of Treasuries as regards these transactions.

No. Fl. 5102—G. F. 84-16-2 dated 7th March 1917.

Government are pleased to notify for the information of the public that the facilities afforded to effect purchases and sales of securities appertaining to the Mysore State Loan of 1906-07 are extended to the following debentures :—

1. Kolar District Railway.
2. Chitaldrug District Board Railway.
3. Shimoga District Board Railway.
4. Chitaldrug Town Water-supply.

2. Intending purchasers and sellers of all these debentures may apply to the Assistant Comptroller in charge of the State Huzur Treasury, Bangalore.

3. The same conditions and procedure as are applicable to the transactions relating to Government Securities, laid down in Government Order No. Fl. 878-923—G. F. 491-11-2, dated 20th August 1912, reproduced below, will apply in their entirety to the sale and purchase transactions of all these Debentures.

4. Deputy Commissioners are requested to arrange for English and Kannada copies of this notification being posted in all District and Taluk Treasuries.

By Order,
J. S. CHAKRAVARTI,
Financial Secretary.

Proceedings of the Government of His Highness the Maharaja of Mysore.

NO. FL. 878-923—G. F. 491-11-2, DATED BANGALORE, 20TH AUGUST 1912.

ORDER.—As there is reason to believe that sufficient facilities do not exist for bringing together persons wishing to sell and those wishing to purchase the securities appertaining to the State Loan of 1906-07, the Government are pleased to direct that the Comptroller should arrange to keep in the State Huzur Treasury a register in which should be noted all particulars including value, rate, etc., relating to the intended purchase or sale of the Mysore State Securities by any member of the public. Any one willing to purchase or sell such securities should communicate his desire to the Comptroller in the State Huzur Treasury Department with all necessary particulars whereon the necessary entries in the register aforesaid should be made. When the Comptroller finds from the entries in the register that he can accommodate an intending buyer and an intending seller, he will ask the buyer if he is willing to purchase the securities required at the rate fixed by the seller. The name and address of the seller and a brief account of his title to the paper obtained from him will also be furnished to the buyer. If he agrees and pays into the nearest treasury an amount sufficient to cover cost, interest accrued and commission, the seller will be requested to effect a suitable endorsement on the security and transmit it to the State Huzur Treasury. The security will then be transmitted to the buyer through the local treasury and the buyer will take delivery of it after examining the paper and scrutinizing the endorsements so as to be satisfied about the title. The money will afterwards be made payable to the seller from any treasury in the State according to his convenience.

2. If in any case the buyer does not take delivery of the paper, the purchase money will be refunded to him but the commission will be forfeited. The security will, in that case, be returned to the owner and the paper will be renewed, if required by him without any fee. As the Comptroller's Office will always have full information about papers and loss of which by theft, etc., will have been notified, there will be no chance of such papers passing through the State Huzur Treasury and cases of intending buyers not taking delivery of the papers must be very rare.

3. The accrued interest from the beginning of the half-year up to the date of deposit of money by the buyer will be added to the buyer to the value of the security. He will therefore, get interest on his money from the next day. The seller will have to lose interest for a few days till the sale money is actually paid to him from the treasury named by him. Against this, however, there will be the free transfer of money from one place to another.

4. A commission of $\frac{1}{16}$ per cent will be charged to the seller by the Comptroller and a similar commission to the buyer, both calculated on the face value of the security. The commission will be paid by the buyer along with the purchase money and the commission payable by the seller will be deducted by the Comptroller before the sale money is paid to the seller.

5. The rates of discount or premium at which transactions will be effected will depend on the rates at which buyers and sellers will come to agreement. Naturally sellers who offer to sell at the lowest rate will be able to sell first and similarly buyers who want to buy at the highest rate will get through their transactions most expeditiously.

J. S. CHAKRAVARTI,
Financial Secretary.

OFFICE OF THE COMPILER, MYSORE GAZETTE.

NOTICE.

1. The *Mysore Gazette* is published at Bangalore every Thursday. Matter for publication in the Gazette is often sent late to the Press. This involves considerable inconvenience to the Press and expense to Government. All matter intended for publication in Parts II, III, IV, V and VI should therefore reach this office not later than Tuesday noon, and that for Part I not later than the forenoon of Wednesday, for the following Thursday's issue of the Gazette.

2. Spare copies of notifications, etc., are often asked for long after their publication, when the matter has been broken up, necessitating its resetting and thereby causing inconvenience to the Press and waste of money. When spare copies are wanted, a note to that effect, stating the number of copies, should be made at foot of such manuscript. If spare copies exceeding 100 in number are required, the department concerned should supply the required quantity of paper.

3. Matter sent for insertion in the Gazette will be published only once.

4. Applications for the supply of the Gazette on *Public Service* should be made to the Chief Secretary to the Government of Mysore.

5. The English or the Kanarese portion of the *Mysore Gazette*, consisting of Parts I, II, III and V only, will be supplied to the Members of the Representative Assembly during their tenure of office as such Members, Shanbhogs, Patels, Nad Patels and Shekdars within the State at *half* rates on production of a certificate from the Amildar of the taluk to the effect that such applicant is *bona fide* on duty at the time. Such subscribers will please note that the Gazette cannot be had *in separate Parts* at concession rates. Those who pay Rs. 2 per annum will have Parts I, II, III and V only and those who require the other Parts will have to pay the *full* subscription fixed for the Part or Parts wanted; but those who pay Rs. 4 will get the entire copy of the Gazette.

6. As Government Treasuries in Mysore are authorized to receive and credit Gazette subscriptions as well as publication charges remitted by Courts or private parties, all such moneys should be sent to Treasuries and only Treasury receipts forwarded to this office. No money orders or cash will be received by the undersigned except from parties outside the State.

7. Much inconvenience is caused to this office by subscribers omitting to give their full and correct addresses and writing illegibly on the money order coupons. They are requested to insert invariably the name of the Post Office to which their copy should be sent.

8. Communications on post cards or on paper less than quarter sheet of foolscap, will not receive attention, and no communication should be sent on Government Service by private parties.

9. An efficient system of check and counter-check is maintained over the despatch of Gazette copies forwarded through post. Duplicates cannot be supplied in any case of non-delivery.

10. Complaints regarding non-receipt of the Gazette should be forwarded to the undersigned within a week after the date on which it is due.

11. The revised rates of subscription to the Gazette, which are payable *in advance*, are as follow:—

PILGRIMAGE TO THE HEDJAZ.

This year there will be many ships sailing to the Hedjaz. The approximate dates of their sailing, and the places from which they will sail, will be as follows :—

15th June from Bombay.
25th do do
25th do Karachi.
30th do do
5th July from do
20th do do
30th July from Karachi.
7th August from Bombay.
10th do do
10th do Karachi.
10th do Bombay.

Those who live in the north-western parts of India, including the western parts of the United Provinces and Sind, are advised to take ship from Karachi, where the climate is good and dry, and where arrangements for the accommodation of pilgrims have been made.

Though the fares for sea-journeys throughout the world are now very high, the Government have arranged that the price of a return ticket to and from the Hedjaz, shall be only Rs. 125, which is no higher than pre-war rates.

The Government is also arranging that pilgrims shall obtain their passports in their own districts from the District and Sub-Divisional Officers and from Political Officers in Indian States.

During the war it was difficult to make journeys by sea, but now that the enemies of the King-Emperor have been conquered, every effort is being made by the Government to provide facilities for the pilgrimage and to ensure the comfort of the pilgrims.

OFFICE OF THE COMPILER, MYSORE GAZETTE.

NOTICE.

1. The *Mysore Gazette* is published at Bangalore every Thursday. Matter for publication in the Gazette is often sent late to the Press. This involves considerable inconvenience to the Press and expense to Government. All matter intended for publication in Parts II, III, IV, V and VI should therefore reach this office not later than Tuesday noon, and that for Part I not later than the forenoon of Wednesday, for the following Thursday's issue of the Gazette.

2. Spare copies of notifications, etc., are often asked for long after their publication, when the matter has been broken up, necessitating its resetting and thereby causing inconvenience to the Press and waste of money. When spare copies are wanted, a note to that effect, stating the number of copies, should be made at foot of such manuscript. If spare copies exceeding 100 in number are required, the department concerned should supply the required quantity of paper.

3. Matter sent for insertion in the Gazette will be published only once

4. Applications for the supply of the Gazette on *Public Service* should be made to the Chief Secretary to the Government of Mysore.

5. The English or the Kanarese portion of the *Mysore Gazette*, consisting of Parts I, II, III and V only, will be supplied to the Members of the Representative Assembly during their tenure of office as such Members, Shanbhogs, Patels, Nad Patels and Shekdars within the State at *half* rates on production of a certificate from the Amildar of the taluk to the effect that such applicant is *bona fide* on duty at the time. Such subscribers will please note that the Gazette cannot be had *in separate Parts* at concession rates. Those who pay Rs. 2 per annum will have Parts I, II, III and V only and those who require the other Parts will have to pay the *full* subscription fixed for the Part or Parts wanted; but those who pay Rs. 4 will get the entire copy of the Gazette.

6. As Government Treasuries in Mysore are authorized to receive and credit Gazette subscriptions as well as publication charges remitted by Courts or private parties, all such moneys should be sent to Treasuries and only Treasury receipts forwarded to this office. No money orders or cash will be received by the undersigned except from parties outside the State

7. Much inconvenience is caused to this office by subscribers omitting to give their full and correct addresses and writing illegibly on the money order coupons. They are requested to insert invariably the name of the Post Office to which their copy should be sent.

8. Communications on post cards or on paper less than quarter sheet of foolscap, will not receive attention, and no communication should be sent on Government Service by private parties.

9. An efficient system of check and counter-check is maintained over the despatch of Gazette copies forwarded through post. Duplicates cannot be supplied in any case of non-delivery.

10. Complaints regarding non-receipt of the Gazette should be forwarded to the undersigned within a week after the date on which it is due.

Notice.

PILGRIMAGE TO THE HEDJAZ.

This year there will be many ships sailing to the Hedjaz. The approximate dates of their sailing, and the places from which they will sail, will be as follows :—

15th June from Bombay.
25th do do
25th do Karachi.
30th do do
5th July from do
20th do do
30th July from Karachi.
7th August from Bombay.
10th do do
10th do Karachi.
10th do Bombay.

Those who live in the north-western parts of India, including the western parts of the United Provinces and Sind, are advised to take ship from Karachi, where the climate is good and dry, and where arrangements for the accommodation of pilgrims have been made.

Though the fares for sea-journeys throughout the world are now very high, the Government have arranged that the price of a return ticket to and from the Hedjaz, shall be only Rs. 125, which is no higher than pre-war rates.

The Government is also arranging that pilgrims shall obtain their passports in their own districts from the District and Sub-Divisional Officers and from Political Officers in Indian States.

During the war it was difficult to make journeys by sea, but now that the enemies of the King-Emperor have been conquered, every effort is being made by the Government to provide facilities for the pilgrimage and to ensure the comfort of the pilgrims.

OFFICE OF THE COMPILER, MYSORE GAZETTE.

NOTICE.

1. The *Mysore Gazette* is published at Bangalore every Thursday. Matter for publication in the Gazette is often sent late to the Press. This involves considerable inconvenience to the Press and expense to Government. All matter intended for publication in Parts II, III, IV, V and VI should therefore reach this office not later than Tuesday noon, and that for Part I not later than the forenoon of Wednesday, for the following Thursday's issue of the Gazette.

2. Spare copies of notifications, etc., are often asked for long after their publication, when the matter has been broken up, necessitating its resetting and thereby causing inconvenience to the Press and waste of money. When spare copies are wanted, a note to that effect, stating the number of copies, should be made at foot of such manuscript. If spare copies exceeding 100 in number are required, the department concerned should supply the required quantity of paper.

3. Matter sent for insertion in the Gazette will be published only once.

4. Applications for the supply of the Gazette on *Public Service* should be made to the Chief Secretary to the Government of Mysore.

5. The English or the Kanarese portion of the *Mysore Gazette*, consisting of Parts I, II, III and V only, will be supplied to the Members of the Representative Assembly during their tenure of office as such Members, Shanbhogs, Patels, Nad Patels and Shekdars within the State at *half* rates on production of a certificate from the Amildar of the taluk to the effect that such applicant is *bona fide* on duty at the time Such subscribers will please note that the Gazette cannot be had *in separate Parts* at concession rates. Those who pay Rs. 2 per annum will have Parts I, II, III and V only and those who require the other Parts will have to pay the *full* subscription fixed for the Part or Parts wanted, but those who pay Rs. 4 will get the entire copy of the Gazette.

6. As Government Treasuries in Mysore are authorized to receive and credit Gazette subscriptions as well as publication charges remitted by Courts or private parties, all such moneys should be sent to Treasuries and only Treasury receipts forwarded to this office. No money orders or cash will be received by the undersigned except from parties outside the State.

7. Much inconvenience is caused to this office by subscribers omitting to give their full and correct adaresses and writing illegibly on the money order coupons. They are requested to insert invariably the name of the Post Office to which their copy should be sent.

8. Communications on post cards or on paper less than quarter sheet of foolscap, will not receive attention, and no communication should be sent on Government Service by private parties.

9. An efficient system of check and counter-check is maintained over the despatch of Gazette copies forwarded through post. Duplicates cannot be supplied in any case of non-delivery.

10. Complaints regarding non-receipt of the Gazette should be forwarded to the undersigned within a week after the date on which it is due.

11. The revised rates of subscription to the Gazette, which are payable *in advance*, are as follow:—

OFFICE OF THE COMPILER, MYSORE GAZETTE.

NOTICE.

1. The *Mysore Gazette* is published at Bangalore every Thursday. Matter for publication in the Gazette is often sent late to the Press. This involves considerable inconvenience to the Press and expense to Government. All matter intended for publication in Parts II, III, IV, V and VI should therefore reach this office not later than Tuesday noon, and that for Part I not later than the forenoon of Wednesday, for the following Thursday's issue of the Gazette

2. Spare copies of notifications, etc., are often asked for long after their publication, when the matter has been broken up, necessitating its resetting and thereby causing inconvenience to the Press and waste of money. When spare copies are wanted, a note to that effect, stating the number of copies, should be made at foot of such manuscript. If spare copies exceeding 100 in number are required, the department concerned should supply the required quantity of paper.

3. Matter sent for insertion in the Gazette will be published only once.

4. Applications for the supply of the Gazette on *Public Service* should be made to the Chief Secretary to the Government of Mysore.

5. The English or the Kanarese portion of the *Mysore Gazette*, consisting of Parts I, II, III and V only, will be supplied to the Members of the Representative Assembly during their tenure of office as such Members, Shanbhogs, Patels, Nad Patels and Shekdars within the State at *half* rates on production of a certificate from the Amildar of the taluk to the effect that such applicant is *bona fide* on duty at the time. Such subscribers will please note that the Gazette cannot be had *in separate Parts* at concession rates. Those who pay Rs. 2 per annum will have Parts I, II, III and V only and those who require the other Parts will have to pay the *full* subscription fixed for the Part or Parts wanted; but those who pay Rs. 4 will get the entire copy of the Gazette.

6 As Government Treasuries in Mysore are authorized to receive and credit Gazette subscriptions as well as publication charges remitted by Courts or private parties, all such moneys should be sent to Treasuries and only Treasury receipts forwarded to this office. No money orders or cash will be received by the undersigned except from parties outside the State

7. Much inconvenience is caused to this office by subscribers omitting to give their full and correct addresses and writing illegibly on the money order coupons. They are requested to insert invariably the name of the Post Office to which their copy should be sent.

8. Communications on post cards or on paper less than quarter sheet of foolscap, will not receive attention, and no communication should be sent on Government Service by private parties.

9. An efficient system of check and counter-check is maintained over the despatch of Gazette copies forwarded through post. Duplicates cannot be supplied in any case of non-delivery.

10. Complaints regarding non-receipt of the Gazette should be forwarded to the undersigned within a week after the date on which it is due.

11. The revised rates of subscription to the Gazette, which are payable *in advance*, are as follow :—

OFFICE OF THE COMPILER, MYSORE GAZETTE

NOTICE

1 The *Mysore Gazette* is published at Bangalore every Thursday Matter for publication in the Gazette is often sent late to the Press This involves considerable inconvenience to the Press and expense to Government All matter intended for publication in Parts II, III, IV, V and VI should therefore reach this office not later than Tuesday noon, and that for Part I not later than the forenoon of Wednesday, for the following Thursday's issue of the Gazette

2 Spare copies of notifications, etc , are often asked for long after their publication, when the matter has been broken up, necessitating its resetting and thereby causing inconvenience to the Press and waste of money When spare copies are wanted, a note to that effect, stating the number of copies, should be made at foot of such manuscript If spare copies exceeding 100 in number are required, the department concerned should supply the required quantity of paper

3 Matter sent for insertion in the Gazette will be published only once

4 Applications for the supply of the Gazette on *Public Service* should be made to the Chief Secretary to the Government of Mysore

5 The English or the Kanarese portion of the *Mysore Gazette*, consisting of Parts I, II, III and V only will be supplied to the Members of the Representative Assembly during their tenure of office as such Members, Shanbhogs, Patels, Nad Patels and Shekdars within the State at *half* rates on production of a certificate from the Amildar of the taluk to the effect that such applicant is *bona fide* on duty at the time Such subscribers will please note that the Gazette cannot be had *in separate Parts* at concession rates Those who pay Rs 2 per annum will have Parts I, II, III and V only and those who require the other Parts will have to pay the *full* subscription fixed for the Part or Parts wanted but those who pay Rs 4 will get the entire copy of the Gazette

6 As Government Treasuries in Mysore are authorized to receive and credit Gazette subscriptions as well as publication charges remitted by Courts or private parties, all such moneys should be sent to Treasuries and only Treasury receipts forwarded to this office No money orders or cash will be received by the undersigned except from parties outside the State

7 Much inconvenience is caused to this office by subscribers omitting to give their full and correct addresses and writing illegibly on the money order coupons They are requested to insert invariably the name of the Post Office to which their copy should be sent

8 Communications on post cards or on paper less than quarter sheet of foolscap, will not receive attention and no communication should be sent on Government Service by private parties

9 An efficient system of check and counter-check is maintained over the despatch of Gazette copies forwarded through post Duplicates cannot be supplied in any case of non-delivery

10 Complaints regarding non receipt of the Gazette should be forwarded to the undersigned within a week after the date on which it is due

PART I—Section 2.

GENERAL.

Notification No. G. 50 (one)—Med 56-18-112, dated 8th July 1919.

The following Memorandum on Influenza received from the Government of India is republished for general information:—

INFLUENZA.

MEMORANDUM.

During 1918 a peculiar and exceptionally widespread epidemic of Influenza appeared, which affected the inhabitants of practically every continent. This epidemic not only caused directly or indirectly, a very large number of deaths which in India alone were computed to exceed five million, but left behind it a legacy of minor ailments with consequent national debility. The economic effect through the disorganization of trade cannot be estimated but must have been very great.

Although previously severe and worldwide epidemics have been known to occur, in none were the spread and mortality so alarming as in the epidemic of 1918. So far as it affected India, the epidemic of the summer months assumed a mild form of the disease. After an apparent departure, it re-appeared in a virulent and very fatal form during the autumn months and then seemingly disappeared at the end of the year. In fact this was not so, as small localized epidemics have occurred and sporadic cases have continued throughout the present year. As the experience of epidemics in England and elsewhere has been that recrudescences at intervals are liable to occur, it is highly desirable to be prepared for such an event in India.

With this object in view, this Memorandum has been prepared, which sets forth opinions founded upon the valuable observations made during the 1918 pandemic and contained in the world's medical literature, and which furnishes in the abstract a list of the preventive measures that promise to give the best results in India. It is not possible to say that even with the adoption of the suggested measures it will be possible to prevent the disease becoming epidemic, but it can safely be asserted that the observance of these rules will diminish the incidence of the infection.

The organism responsible for the epidemic of influenza has not been definitely identified The weight of evidence still points, however, to the bacillus, called the bacillus of Pfeiffer being the cause: at all events it is intimately associated with the disease. Judging from clinical and epidemiological standpoints, the disease which appeared in India was identical with the last great pandemic of influenza which occurred in 1890-91. In the absence, however, of definite proof of the casual organism, this statement is a surmise although a probable one

Influenza is a disease which exhibits an intense infectivity and an incubation period which is relatively very short, *i.e.*, from 6 to 48 hours. It is commonly believed that the disease is spread by the infected secretions of the throat and nose of infected persons finding lodgment in the nose and throat of uninfected people. The commonest means by which this occurs is by coughing and sneezing, especially in confined spaces. Methods of prevention, then, will consist of preventing communication of infection by these channels.

These measures may be considered from two standpoints.

I—Procedure recommended for Military, Municipal, and other Administrative Bodies.

It is realized that no legislative measures can be adopted in most communities and moreover since the limitation of an epidemic of this nature depends more upon individual than upon legal enactments, the following general recommendations are made.

A. Education of the public with regard to such facts as the following:—

(1) The golden rule is to keep fit and avoid infection as much as possible.

(2) The way to keep fit is to cultivate healthy and regular habits, take regular exercise, to eat good food, and to avoid fatigue, chill and alcoholism. Healthy living does not of itself ensure against attack, but it makes the patient better able to withstand the complications which may kill.

(3) The earliest symptoms of influenza are usually those of a severe feverish cold: it is most infectious in the earliest stages; it is spread by discharges from the mouth and nose; it kills mainly by its complications and every person suffering from the disease, no matter of how mild a form, is a danger to others. For these reasons coughing, sneezing, spitting and hawking in public places are dangerous.

(4) It is not always possible to avoid infection, but the risks can be lessened by—
(a) healthy living;
(b) working and sleeping in well-ventilated rooms;
(c) avoiding crowded gatherings and close ill-ventilated buildings, or carriages.
(d) wearing warm clothing;
(e) irrigating the nose with saline solution (see later);
(f) wearing in certain instances a mask of prescribed pattern (see later).

(5) Do not lay too much emphasis upon drugs in the hope of preventing infection

(6) Those attacked should—
(a) go to hospital or go home, go to bed and keep warm;
(b) call in a doctor, where possible;
(c) occupy, if possible, a separate bedroom or a bed that is screened off from the rest of the room;
(d) when coughing or sneezing hold a handkerchief in front of the mouth, the handkerchief should be boiled or sterilized in antiseptics, or burnt if of paper. Similar attention should be paid to linen, etc., soiled by discharges, by persons suffering from common cold or catarrh, as it is undoubted that in apparently healthy communities the infective agents of influenza are frequently present in such persons.
(e) Do not return to work, through a sense of duty, until convalescence is well established, and during convalescence be extremely careful to avoid chill which may induce a relapse or complications;
(f) avoid meetings and places of entertainment for at least one week after the temperature has become normal.

Such education we believe should be made compulsory in all schools and colleges; the press might aid by giving publicity to such measures as are recommended for adoption.

B. The closing of meeting places, schools, colleges, cinema halls, dancing halls, skating rings, churches, etc.—Regarding these measures universal recommendations cannot be made. The widespread depression in the minds of the general population during epidemic times must be remembered Such depression may be a predisposing factor in the occurrence of the disease, and it is felt that if measures were passed such as closing all theatres and resorts of amusement, the effect on the public health might be worse than if nothing was done at all.

Again, take the instance of schools; if children were taken from well ventilated schools they might add to the congestion of already overcrowded houses. This matter must be left to individual localities to settle, bearing in mind that it is necessary to limit the number of unnecessary gatherings and that it is necessary to keep up the morale of the public. In this connection attention should be drawn to the dangers associated with travelling in cars and carriages. It is believed that a fertile source of the spread of infection occurs in overcrowded railway carriages, tram cars, etc The prevention of overcrowding should especially be insisted on at such times and scrupulous cleanliness of carriages and cars be enforced. It is believed that much mischief was done in the last epidemic by the exodus from cities of panic-stricken populations, and facilities for such exodus should be prohibited.

C. The wearing of face masks.—Opinions are divided as to the efficacy of this measure: it largely depends upon their construction. The masks should be of very close woven muslin or gauze. Recent work in America would seem to point to a gauze with a mesh 44 by 40 to the inch, three to six layers of fine muslin should form the mask and they should be applied so as to cover the nose and mouth completely. The gauze is cut 8 inches wide and 23 inches long. Details of the method of manufacture are given in a foot-note.*

The use of these masks should be made compulsory among nurses and attendants in hospitals which admit influenza patients and might be adopted in houses where cases of influenza are present and among volunteers and others who come in contact with the sick. The wearing of a face mask, whilst having a certain protective action, exerts an educative influence upon the patients. Though it would be more reasonable for the patients to wear a mask, this is impracticable in view of further impending respiration which already may be difficult

As there is a small possibility that droplets of infective matter lodging in the eyes may give rise to the disease, the use of goggles by such attendants may also be recommended

Another suggested use of face masks is by barbers, dentists, etc., whose occupation brings them into close contact with a number of persons, and who if incubating the disease may otherwise infect their clients

*The gauze 44 by 40 mesh is cut 8 inches wide and 23 inches long. The sides and one end are turned down one quarter inch. It is folded twice, the unturned end first, making a 7½ inch square. The opposite diagonal corners are cut off 1 inch and the raw edge is turned in one-half inch It is stitched firmly all around. A 1 inch dart 1½ inches long is taken up at the middle of each side of the mask A 14 inch tape is sewed on the opposite uncut corners. This mask has the advantage of covering the nose and mouth and in making the traction on the chin and not drawing on the nose and lips

D. Isolation.—It is feared that insistence upon isolation of influenza cases in India is impossible. For one thing there is not sufficient hospital accommodation. Every case, however, of influenzal pneumonia should be rigorously isolated as the germs present in post-influenzal pneumonia are themselves infectious, altogether apart from the causative organisms of influenza. Hospitals should attempt to separate uncomplicated influenzal cases from those suffering from secondary pneumonia.

E. Sprays and Gargles.—The use of disinfectant sprays and gargles is not recommended. Disinfectants are apt to remove the protective mucus of the throat and mouth to cause irritation of the mucus membranes or lining membranes of these cavities and so predispose to the lodgment of infective material. They can hardly be used strong enough to be protective without causing violent irritation.

The use, however, of a solution of common salt one teaspoonful to a pint of 20 ozs. might be productive of good results if used as a gargle or sniffed up the nose, as it will produce an excess of the normal secretions of the nose and throat and this leads to the washing-out of micro-organisms.

F. Disinfection.—With regard to the disinfection of infected rooms, it seems fairly established that ordinary cleansing with water, airing, and sunning effect as much good as the use of actual disinfectants. In addition as already suggested, all handkerchiefs, sheets and clothings recently soiled (within 48 hours, as drying kills the infective agent) should be boiled or otherwise sterilized.

The periodic disinfection on the above lines of public places, *e.g.*, railway waiting rooms, trams, rolling stock, dak bungalows, serais, etc., which in epidemic times may be taken to be infected, is also strongly recommended.

G. Quarantine.—A limited measure might be practised by local institutions such as resident colleges, schools, asylums and jails. A jail, for example, situated in an epidemic area might be rigid quarantine be reasonably certain of keeping out infection, or at least of delaying its appearance. There was evidence of the efficiency of this measure in certain jails in India during the last epidemic.

H. Notification.—Notification of all cases of influenza would be obviously impossible. A limited notification might, however, be adopted at ports; some value being likely to result from the notification of infected ships and the prompt removal to hospital of actual cases.

Notification of influenzal pneumonial is now compulsory in England and in Australia. This measure in India would only be possible amongst the military and in civil in large towns where the Municipal Acts already permit of the notification of all forms of infectious disease.

II. PROPHYLACTIC VACCINATION.

A mixed vaccine has been prepared and will be available in India in moderate quantities. Until its efficacy or its non-efficacy is established, we can offer no authoritative statement as to the advisability of general prophylactic inoculation.

III. MEASURES FOR ORGANIZED RELIEF.

(*a*) Local authorities should have ready lists of their requirements for doctors, nurses, the additional hospital staff required, such as sweepers, bhistis, etc., mask makers, motor cars, ambulance drivers and volunteers of all kinds necessary for the actual treatment of the sick; and have noted, as far as possible, the actual persons who could prove useful in various accessory capacities. A canvass of private cars which people are willing to lend as ambulances, might advantageously be made. Further, the names of volunteers, for district visiting and localization of cases should be noted.

In this connexion too it would be well for municipalities and other local authorities to entrust the actual arrangements prior to an epidemic and preparatory for it, to some already organized body such as the St. John's Ambulance Brigade Nursing Association, as in addition to the above, hospital requisites must be obtained, *e.g.*, beds, mattresses, etc. Lists of what are available should be made ready.

(*b*) Resources of men and material should be centralized under one central authority.

(*c*) The work of district visitors in a house-to-house canvass, referred to under paragraph (*a*) above, should be co-ordinated. Valuable information would thus accrue as to the actual extent of the disease. These visitors should also be instructed as to the type of case and home which would justify home treatment being adopted, and when hospital treatment is necessary.

A central clearing house or a bed dispensary might be instituted in large towns and severe cases be transferred from these to the hospitals. Hospitals should be warned to admit only severe cases as their resources will be taxed to the uttermost.

(*d*) It is needless to say that all other public health organizations, such as vaccination and plague organization staff, etc., should be utilized for the various measures of influenza epidemic control.

OFFICE OF THE COMPILER, MYSORE GAZETTE.

NOTICE

1. The *Mysore Gazette* is published at Bangalore every Thursday Matter for publication in the Gazette is often sent late to the Press. This involves considerable inconvenience to the Press and expense to Government. All matter intended for publication in Parts II, III, IV, V and VI should therefore reach this office not later than Tuesday noon, and that for Part I not later than the forenoon of Wednesday, for the following Thursday's issue of the Gazette.

2 Spare copies of notifications, etc., are often asked for long after their publication, when the matter has been broken up, necessitating its resetting and thereby causing inconvenience to the Press and waste of money. When spare copies are wanted, a note to that effect, stating the number of copies, should be made at foot of such manuscript. If spare copies exceeding 100 in number are required, the department concerned should supply the required quantity of paper

3. Matter sent for insertion in the Gazette will be published only once.

4. Applications for the supply of the Gazette on *Public Service* should be made to the Chief Secretary to the Government of Mysore

5. The English or the Kanarese portion of the *Mysore Gazette*, consisting of Parts I, II, III and V only, will be supplied to the Members of the Representative Assembly during their tenure of office as such Members, Shanbhogs, Patels, Nad Patels and Shekdars within the State at *half* rates on production of a certificate from the Amildar of the taluk to the effect that such applicant is *bona fide* on duty at the time Such subscribers will please note that the Gazette cannot be had *in separate Parts* at concession rates. Those who pay Rs. 2 per annum will have Parts I, II, III and V only and those who require the other Parts will have to pay the *full* subscription fixed for the Part or Parts wanted, but those who pay Rs. 4 will get the entire copy of the Gazette

6 As Government Treasuries in Mysore are authorized to receive and credit Gazette subscriptions as well as publication charges remitted by Courts or private parties, all such moneys should be sent to Treasuries and only Treasury receipts forwarded to this office. No money orders or cash will be received by the undersigned except from parties outside the State

7. Much inconvenience is caused to this office by subscribers omitting to give their full and correct addresses and writing illegibly on the money order coupons They are requested to insert invariably the name of the Post Office to which their copy should be sent

8 Communications on post cards or on paper less than quarter sheet of foolscap, will not receive attention, and no communication should be sent on Government Service by private parties.

9 An efficient system of check and counter-check is maintained over the despatch of Gazette copies forwarded through post Duplicates cannot be supplied in any case of non-delivery.

10. Complaints regarding non-receipt of the Gazette should be forwarded to the undersigned within a week after the date on which it is due.

11. The revised rates of subscription to the Gazette, which are payable *in advance*, are as follow :—

PART I—Section 2.

GENERAL.

No. G. 1599—G. M. 17-19-1, dated 22nd July 1919.

His Highness the Maharaja has heard, with great regret, the news of the death of Pradhanasiromani Mr. T. Ananda Row, B.A., C.I.E., late Dewan of Mysore, which event occurred in the morning of the 20th July 1919.

As a mark of respect, His Highness has been pleased to direct that all Public Offices, Courts and Educational Institutions in the Cities of Bangalore and Mysore be closed on Wednesday, the 23rd July 1919.

Official Memorandum No. G. 1370—Pris. 68-18-17, dated 18th July 1919.

The accompanying Press Communique is published for general information:—

PRESS COMMUNIQUE.

His Highness the Maharaja of Mysore has been pleased to direct, as an act of clemency and grace and as one of the measures for celebrating the auspicious occasion of the signature of Peace, the release of a number of prisoners and the remission of a portion of the sentences of other prisoners in all the Jails and Lock-ups in the State on the 19th July 1919.

2. Regarding general offenders, releases and remissions will be given on the following scale:—

I. All prisoners under sentence of one month or less who have worked out half their sentence should be released absolutely. All prisoners of this class who have not completed half their sentence, should be granted remission of half their sentence provided their conduct in Jail has not been bad.

II. All prisoners under sentence of more than one month and not more than six months should be granted remission of fifteen days provided their conduct in Jail has not been bad.

III. All prisoners under sentence of more than six months and not more than twelve months should be granted remission of one month, provided their conduct in Jail has not been bad.

IV. All prisoners, under sentence of more than one year should be granted remission of one month for each year of sentence, provided their conduct in Jail has not been bad.

V. Certain prisoners sentenced under Chapter VI of the Indian Penal Code for offences against the State or for kindered offences under other laws, should be released or should have the balance of their sentences conditionally suspended upon an undertaking of future good behaviour.

VI. In addition to the above, male prisoners up to a number not exceeding 10 per cent of the total number of prisoners in the State Jails should be released. The selection of these prisoners should be made from among men whose conduct in Jail has not been bad, who have not more than two convictions and whose original offence was not of an organised character or of such a nature as to render them dangerous to society, or to public order, or to result, if they were released, in a renewal of blood feuds. All female prisoners, provided their offences were not of a serious nature, or who deserve clemency on account of their good conduct in the Jail, of their extreme youth at the time of committing serious crimes, or the peculiar circumstances under which they were convicted should be released, and those not released should receive remissions as above.

VII. Every civil prisoner confined for a debt not exceeding Rs. 100 who is through poverty unable to pay his debt and whose debt was not due to fraud on his part should be released, and his debt defrayed by Government.

No. G. 1513—R. A. 8-19-2, dated 21st July 1919.

It is hereby notified for general information that the following gentlemen have been deputed to the Representative Assembly of 1919-20:—

OFFICE OF THE COMPILER, MYSORE GAZETTE

NOTICE

1. The *Mysore Gazette* is published at Bangalore every Thursday. Matter for publication in the Gazette is often sent late to the Press This involves considerable inconvenience to the Press and expense to Government All matter intended for publication in Parts II, III, IV, V and VI should therefore reach this office not later than Tuesday noon, and that for Part I not later than the forenoon of Wednesday, for the following Thursday's issue of the Gazette.

2 Spare copies of notifications, etc , are often asked for long after their publication, when the matter has been broken up, necessitating its resetting and thereby causing inconvenience to the Press and waste of money. When spare copies are wanted, a note to that effect, stating the number of copies, should be made at foot of such manuscript If spare copies exceeding 100 in number are required, the department concerned should supply the required quantity of paper

3. Matter sent for insertion in the Gazette will be published only once

4 Applications for the supply of the Gazette on *Public Service* should be made to the Chief Secretary to the Government of Mysore

5. The English or the Kanarese portion of the *Mysore Gazette*, consisting of Parts I, II, III and V only, will be supplied to the Members of the Representative Assembly during their tenure of office as such Members, Shanbhogs, Patels, Nad Patels and Shekdars within the State at *half* rates on production of a certificate from the Amildar of the taluk to the effect that such applicant is *bona fide* on duty at the time. Such subscribers will please note that the Gazette cannot be had *in separate Parts* at concession rates Those who pay Rs 2 per annum will have Parts I, II, III and V only and those who require the other Parts will have to pay the *full* subscription fixed for the Part or Parts wanted, but those who pay Rs 4 will get the entire copy of the Gazette

6 As Government Treasuries in Mysore are authorized to receive and credit Gazette subscriptions as well as publication charges remitted by Courts or private parties, all such moneys should be sent to Treasuries and only Treasury receipts forwarded to this office No money orders or cash will be received by the undersigned except from parties outside the State

7. Much inconvenience is caused to this office by subscribers omitting to give their full and correct addresses and writing illegibly on the money order coupons They are requested to insert invariably the name of the Post Office to which their copy should be sent

8 Communications on post cards or on paper less than quarter sheet of foolscap, will not receive attention, and no communication should be sent on Government Service by private parties

9 An efficient system of check and counter-check is maintained over the despatch of Gazette copies forwarded through post Duplicates cannot be supplied in any case of non-delivery.

10. Complaints regarding non-receipt of the Gazette should be forwarded to the undersigned within a week after the date on which it is due.

11 The revised rates of subscription to the Gazette, which are payable *in advance*, are as follow :—

No E D S 55, dated 26th July 1919.

The following communications regarding changes in the Telegraph Engineering Circles is published for general information.—

Letter No. 420—21, dated the 24th June 1919 from the Director, Telegraph Engineering, Southern Circle, Bombay, to the Chief Secretary to the Government of Madras

I have the honour to report for the information of your Government that it has been decided by the Government of India in the Department of Commerce and Industry, that the present Telegraph Engineering Circle styled "Southern Circle" with Headquarters at Bombay is to be split up into two circles, and that a new circle is to be created which will comprise the three present Telegraph Engineering Divisions of Bangalore, Madras and Trichinopoly, or in other words, the telegraph and telephone lines in Madras Presidency proper, the Travancore and Cochin States, and the Nizam's territory excluding the lines from Gulburga to Raichur and Manmad to Hyderabad (Deccan) This new circle will be designated the "Southern Circle" with Headquarters at Madras under the charge of a Director of Telegraph Engineering. The remainder of the present Engineering Circle now known as "Southern" will then be styled the "Western Circle" with Headquarters at Bombay

2. This scheme will take effect from 1st August 1919, and I shall be glad if you will kindly address from that date the Director, Telegraph Engineering, Southern Circle, Madras on all matters connected with telephone schemes, telegraph and telephone lines and other matters which are at present being addressed to me

By Order,
S CADAMBI,
Secretary to Government,
Public Works Department.

FINANCIAL.

No. Fl. 5825—G. F. 119-17-2, dated 26th April 1919.

The following terms are offered to holders of the Mysore State Loan of 1906.

(1) All promissory notes of the Mysore State Loan of 1906, now carrying interest at 4 per cent per annum will, at the option of the holder, be converted into new promissory notes of an equal amount carrying interest at 5½ per cent with effect from 1st October 1919.

(2) The new promissory notes will be repayable at par after 25 years from 1st October 1919. Government however reserve the right of repaying at par at any time after ten years after reissue subject to three months' previous notice being given.

(3) Those who desire to avail themselves of the privilege of conversion should tender their notes for conversion not later than the 31st July 1919, when interest will be paid on them at 4 per cent up to the 30th September 1919, inclusive and new 5½ per cent notes bearing interest from 1st October 1919, will be issued in lieu of them, the Comptroller will issue subsidiary instructions for the guidance of holders of paper and of Treasuries as regards these transactions

By Order,

OFFICE OF THE COMPILER, MYSORE GAZETTE.

NOTICE.

1. The *Mysore Gazette* is published at Bangalore every Thursday. Matter for publication in the Gazette is often sent late to the Press. This involves considerable inconvenience to the Press and expense to Government. All matter intended for publication in Parts II, III, IV, V and VI should therefore reach this office not later than Tuesday noon, and that for Part I not later than the forenoon of Wednesday, for the following Thursday's issue of the Gazette.

2. Spare copies of notifications, etc., are often asked for long after their publication, when the matter has been broken up, necessitating its resetting and thereby causing inconvenience to the Press and waste of money. When spare copies are wanted, a note to that effect, stating the number of copies, should be made at foot of such manuscript. If spare copies exceeding 100 in number are required, the department concerned should supply the required quantity of paper.

3. Matter sent for insertion in the Gazette will be published only once.

4. Applications for the supply of the Gazette on *Public Service* should be made to the Chief Secretary to the Government of Mysore.

5. The English or the Kanarese portion of the *Mysore Gazette*, consisting of Parts I, II, III and V only, will be supplied to the Members of the Representative Assembly during their tenure of office as such Members, Shanbhogs, Patels, Nad Patels and Shekdars within the State at *half* rates on production of a certificate from the Amildar of the taluk to the effect that such applicant is *bona fide* on duty at the time. Such subscribers will please note that the Gazette cannot be had *in separate Parts* at concession rates. Those who pay Rs. 2 per annum will have Parts I, II, III and V only and those who require the other Parts will have to pay the *full* subscription fixed for the Part or Parts wanted, but those who pay Rs. 4 will get the entire copy of the Gazette.

6. As Government Treasuries in Mysore are authorized to receive and credit Gazette subscriptions as well as publication charges remitted by Courts or private parties all such moneys should be sent to Treasuries and only Treasury receipts forwarded to this office. No money orders or cash will be received by the undersigned except from parties outside the State.

7. Much inconvenience is caused to this office by subscribers omitting to give their full and correct addresses and writing illegibly on the money order coupons. They are requested to insert invariably the name of the Post Office to which their copy should be sent.

8. Communications on post cards or on paper less than quarter sheet of foolscap, will not receive attention, and no communication should be sent on Government Service by private parties.

9. An efficient system of check and counter-check is maintained over the despatch of Gazette copies forwarded through post. Duplicates cannot be supplied in any case of non-delivery.

10. Complaints regarding non-receipt of the Gazette should be forwarded to the undersigned within a week after the date on which it is due.

11. The revised rates of subscription to the Gazette, which are payable *in advance*, are as follow —

No. E. D. S. 55, *dated 26th July* 1919.

The following communications regarding changes in the Telegraph Engineering Circles is published for general information :—

Letter No. 420—21, dated the 24th June 1919 from the Director, Telegraph Engineering, Southern Circle, Bombay, to the Chief Secretary to the Government of Madras.

I have the honour to report for the information of your Government that it has been decided by the Government of India in the Department of Commerce and Industry, that the present Telegraph Engineering Circle styled "Southern Circle" with Headquarters at Bombay is to be split up into two circles, and that a new circle is to be created which will comprise the three present Telegraph Engineering Divisions of Bangalore, Madras and Trichinopoly, or in other words, the telegraph and telephone lines in Madras Presidency proper, the Travancore and Cochin States, and the Nizam's territory excluding the lines from Gulburga to Raichur and Manmad to Hyderabad (Deccan). This new circle will be designated the "Southern Circle" with Headquartes at Madras under the charge of a Director of Telegraph Engineering. The remainder of the present Engineering Circle now known as "Southern" will then be styled the "Western Circle" with Headquarters at Bombay.

2. This scheme will take effect from 1st August 1919, and I shall be glad if you will kindly address from that date the Director, Telegraph Engineering, Southern Circle, Madras on all matters connected with telephone schemes, telegraph and telephone lines and other matters which are at present being addressed to me.

PUBLIC WORKS.

No. P. W. 576—*M.* 1814, *dated* 9*th August* 1919.

The Government of His Highness the Maharaja of Mysore are pleased to direct the following alteration in Rule 11 of the revised rules for the regulation of water-supply in the City of Bangalore, published in Notification No. 772—5275, dated the 29th June 1912 :—

Between "4,000 gallons" and "per month" in the last line, insert "or more than 15,000 gallons."

Rule 11 as amended will read as follows :—

11. The quantity of water which any owner of a house or property will be allowed to draw from his house connection free of any charge (other than the general water rate to be assessed upon the annual rental value of his house and premises) shall be regulated in accordance with the following scale :—

"For every one rupee of the rental value of the house and premises, the authorised free allowance shall be 160 gallons, but in no case shall such free allowance be less than 4,000 gallons or more than 15,000 gallons per month."

No. P. W. 1478-80—*M.* 7693-95, *dated 17th June* 1919.

Under Section 6 of the Land Acquisition Regulation, No. VII of 1894, it is hereby declared that the lands described hereunder are required for a public purpose, *viz.*, for the formation of the Chamraja Right Bank Channel, Krishnarajasagara Works and under Sections 7 and 3 (c) of the said Regulation, Mr. T. Dharmaraj Chetty, Assistant Commissioner and Special Land Acquisition Officer, Krishnarajasagara, is authorised to take order for the acquisition of the said lands.

FINANCIAL.

No. Fl. 5102—*G. F.* 84-16-2 *dated 7th March* 1917.

Government are pleased to notify for the information of the public that the facilities afforded to effect purchases and sales of securities appertaining to the Mysore State Loan of 1906-07 are extended to the following debentures:—

1. Kolar District Railway.
2. Chitaldrug District Board Railway.
3. Shimoga District Board Railway.
4. Chitaldrug Town Water-supply.

2. Intending purchasers and sellers of all these debentures may apply to the Assistant Comptroller in charge of the State Huzur Treasury, Bangalore.

3. The same conditions and procedure as are applicable to the transactions relating to Government Securities, laid down in Government Order No. Fl. 878-923—G. F. 491-11-2, dated 20th August 1912, reproduced below, will apply in their entirety to the sale and purchase transactions of all these Debentures.

4. Deputy Commissioners are requested to arrange for English and Kannada copies of this notification being posted in all District and Taluk Treasuries.

By Order,
J. S. CHAKRAVARTI,
Financial Secretary.

Proceedings of the Government of His Highness the Maharaja of Mysore.

No. FL. 878-923—G. F. 491-11-2, DATED BANGALORE, 20TH AUGUST 1912.

ORDER.—As there is reason to believe that sufficient facilities do not exist for bringing together persons wishing to sell and those wishing to purchase the securities appertaining to the State Loan of 1906-07, the Government are pleased to direct that the Comptroller should arrange to keep in the State Huzur Treasury a register in which should be noted all particulars including value, rate, etc., relating to the intended purchase or sale of the Mysore State Securities by any member of the public. Any one willing to purchase or sell such securities should communicate his desire to the Comptroller in the State Huzur Treasury Department with all necessary particulars whereon the necessary entries in the register aforesaid should be made. When the Comptroller finds from the entries in the register that he can accommodate an intending buyer and an intending seller, he will ask the buyer if he is willing to purchase the securities required at the rate fixed by the seller. The name and address of the seller and a brief account of his title to the paper obtained from him will also be furnished to the buyer. If he agrees and pays into the nearest treasury an amount sufficient to cover cost, interest accrued and commission, the seller will be requested to effect a suitable endorsement on the security and transmit it to the State Huzur Treasury. The security will then be transmitted to the buyer through the local treasury and the buyer will take delivery of it after examining the paper and scrutinizing the endorsements so as to be satisfied about the title. The money will afterwards be made payable to the seller from any treasury in the State according to his convenience.

2. If in any case the buyer does not take delivery of the paper, the purchase money will be refunded to him but the commission will be forfeited. The security will, in that case, be returned to the owner and the paper will be renewed, if required by him without any fee. As the Comptroller's Office will always have full information about papers and loss of which by theft, etc., will have been notified, there will be no chance of such papers passing through the State Huzur Treasury and cases of intending buyers not taking delivery of the papers must be very rare.

3. The accrued interest from the beginning of the half-year up to the date of deposit of money by the buyer will be added to the buyer to the value of the security. He will therefore, get interest on his money from the next day. The seller will have to lose interest for a few days till the sale money is actually paid to him from the treasury named by him. Against this, however, there will be the free transfer of money from one place to another.

4. A commission of $\frac{1}{16}$ per cent will be charged to the seller by the Comptroller and a similar commission to the buyer, both calculated on the face value of the security. The commission will be paid by the buyer along with the purchase money and the commission payable by the seller will be deducted by the Comptroller before the sale money is paid to the seller.

5. The rates of discount or premium at which transactions will be effected will depend on the rates at which buyers and sellers will come to agreement. Naturally sellers who offer to sell at the lowest rate will be able to sell first and similarly buyers who want to buy at the highest rate will get through their transactions most expeditiously.

J. S. CHAKRAVARTI,
Financial Secretary.

No. Fl. 708—G. F. 264-18, dated 30th July 1919.

The following terms are offered to holders of the Mysore State Loan of 1906

All promissory notes of the Mysore State Loan of 1906 now carrying interest at 4 per cent per annum, will at the option of the holder be converted into new promissory notes of an equal amount carrying interest at 5½ per cent with effect from 1st October 1919.

2. The new promissory notes will be repayable at par after 25 years from 1st October 1919, Government however reserve the right of repaying at par at any time after 10 years after re-issue subject to three months' previous notice being given

3 Those who desire to avail themselves of the privilege of conversion should tender their notes for conversion not later than the 30th September 1919, when interest will be paid on them at 4 per cent up to the 30th September 1919 inclusive and new 5½ per cent notes bearing interest from 1st October 1919 will be issued in lieu of them The Comptroller will issue subsidiary instructions for the guidance of holders of notes and of Treasuries as regards these transactions

By Order,
M N KRISHNA RAO,
Financial Secretary to Government.

OFFICE OF THE COMPILER, MYSORE GAZETTE.

NOTICE.

1. The *Mysore Gazette* is published at Bangalore every Thursday. Matter for publication in the Gazette is often sent late to the Press. This involves considerable inconvenience to the Press and expense to Government. All matter intended for publication in Parts II, III, IV, V and VI should therefore reach this office not later than Tuesday noon, and that for Part I not later than the forenoon of Wednesday, for the following Thursday's issue of the Gazette.

2. Spare copies of notifications, etc., are often asked for long after their publication, when the matter has been broken up, necessitating its resetting and thereby causing inconvenience to the Press and waste of money. When spare copies are wanted, a note to that effect, stating the number of copies, should be made at foot of such manuscript. If spare copies exceeding 100 in number are required, the department concerned should supply the required quantity of paper.

3. Matter sent for insertion in the Gazette will be published only once.

4. Applications for the supply of the Gazette on *Public Service* should be made to the Chief Secretary to the Government of Mysore.

5. The English or the Kanarese portion of the *Mysore Gazette*, consisting of Parts I, II, III and V only, will be supplied to the Members of the Representative Assembly during their tenure of office as such Members, Shanbhogs, Patels, Nad Patels and Shekdars within the State at *half* rates on production of a certificate from the Amildar of the taluk to the effect that such applicant is *bona fide* on duty at the time. Such subscribers will please note that the Gazette cannot be had *in separate Parts* at concession rates. Those who pay Rs. 2 per annum will have Parts I, II, III and V only and those who require the other Parts will have to pay the *full* subscription fixed for the Part or Parts wanted; but those who pay Rs. 4 will get the entire copy of the Gazette.

6. As Government Treasuries in Mysore are authorized to receive and credit Gazette subscriptions as well as publication charges remitted by Courts or private parties, all such moneys should be sent to Treasuries and only Treasury receipts forwarded to this office. No money orders or cash will be received by the undersigned except from parties outside the State.

7. Much inconvenience is caused to this office by subscribers omitting to give their full and correct addresses and writing illegibly on the money order coupons. They are requested to insert invariably the name of the Post Office to which their copy should be sent.

8. Communications on post cards or on paper less than quarter sheet of foolscap, will not receive attention; and no communication should be sent on Government Service by private parties.

9. An efficient system of check and counter-check is maintained over the despatch of Gazette copies forwarded through post. Duplicates cannot be supplied in any case of non-delivery.

10. Complaints regarding non-receipt of the Gazette should be forwarded to the undersigned within a week after the date on which it is due.

11. The revised rates of subscription to the Gazette, which are payable *in advance*, are as follow:—

OFFICE OF THE COMPILER, MYSORE GAZETTE.

NOTICE.

1. The *Mysore Gazette* is published at Bangalore every Thursday. Matter for publication in the Gazette is often sent late to the Press. This involves considerable inconvenience to the Press and expense to Government. All matter intended for publication in Parts II, III, IV, V and VI should therefore reach this office not later than Tuesday noon, and that for Part I not later than the forenoon of Wednesday, for the following Thursday's issue of the Gazette.

2. Spare copies of notifications, etc., are often asked for long after their publication, when the matter has been broken up, necessitating its resetting and thereby causing inconvenience to the Press and waste of money. When spare copies are wanted, a note to that effect, stating the number of copies, should be made at foot of such manuscript. If spare copies exceeding 100 in number are required, the department concerned should supply the required quantity of paper.

3. Matter sent for insertion in the Gazette will be published only once.

4. Applications for the supply of the Gazette on *Public Service* should be made to the Chief Secretary to the Government of Mysore.

5. The English or the Kanarese portion of the *Mysore Gazette*, consisting of Parts I, II, III and V only, will be supplied to the Members of the Representative Assembly during their tenure of office as such Members, Shanbhogs, Patels, Nad Patels and Shekdars within the State at *half* rates on production of a certificate from the Amildar of the taluk to the effect that such applicant is *bona fide* on duty at the time. Such subscribers will please note that the Gazette cannot be had *in separate Parts* at concession rates. Those who pay Rs. 2 per annum will have Parts I, II, III and V only and those who require the other Parts will have to pay the *full* subscription fixed for the Part or Parts wanted; but those who pay Rs. 4 will get the entire copy of the Gazette.

6. As Government Treasuries in Mysore are authorized to receive and credit Gazette subscriptions as well as publication charges remitted by Courts or private parties, all such moneys should be sent to Treasuries and only Treasury receipts forwarded to this office. No money orders or cash will be received by the undersigned except from parties outside the State.

7. Much inconvenience is caused to this office by subscribers omitting to give their full and correct addresses and writing illegibly on the money order coupons. They are requested to insert invariably the name of the Post Office to which their copy should be sent.

8. Communications on post cards or on paper less than quarter sheet of foolscap, will not receive attention; and no communication should be sent on Government Service by private parties.

9. An efficient system of check and counter-check is maintained over the despatch of Gazette copies forwarded through post. Duplicates cannot be supplied in any case of non-delivery.

10. Complaints regarding non-receipt of the Gazette should be forwarded to the undersigned within a week after the date on which it is due.

11. The revised rates of subscription to the Gazette, which are payable *in advance*, are as follow:—

GENERAL.

No G 4287 —Med 70-18-b, dated 21st August 1919

The accompanying report of the Committee appointed in Government Order No G. 17729-35—Med 70-18-1, dated 18th February 1919, to consider of the question of medical relief in the State, is published for favour of public opinion

All suggestions on the subject may be sent to the Chief Secretary to Government, befor the end of September 1919

IMPROVEMENT OF MEDICAL AID IN THE STATE.

(1) G O No G 17729-35—Med 70-18-1, dated 18th February 1919, appointing a Committee to consider the question of medical relief in the State

(2) Report of the Committee and its enclosures, Appendices I to IV.

Proceedings of the Government of His Highness the Maharaja of Mysore.

ORDER No G 17729-35—MED 70-18-1, DATED 18TH FEBRUARY 1919

Mysore with an area of 29,401 square miles has now only 174 medical institutions composed of thirteen hospitals, one hundred and twenty-nine dispensaries, three maternities and other institutions to serve the medical need of nearly six millions of people This gives on an average one institution for every 169 square miles and about 32,800 inhabitants The number cannot be considered quite adequate and further additions will have to be made as time progresses.

The Malnad Improvement Scheme sanctioned to improve the conditions of the Malnad area, and to render special medical aid to the people there, is on a temporary basis—but eight dispensaries now ordered to be opened will eventually become permanent institutions with further additions to their number as the country gets further opened up by communications

For the total number of institutions mentioned above, there is now a staff of 291 officers The staff requires considerable strengthening

The existing vacancies in the Department are about 20 and the number of Sub-Assistant Surgeons in the service 220 No provision for reserve is made at present Ten per cent at least will be necessary for this purpose The total number to be recruited during the next five years with existing institutions and three additional institutions for each year has also to be taken into consideration

The possibility of recruitment from outside for providing for the needs of the Medical and Sanitary Departments is very limited—almost *nil*—considering the requirements in British India and the improved prospects recently thrown open to those in the British Medical Service

The following points have in addition to be specially considered —

1 Adequacy or otherwise of the present organisation for medical relief in the State

2 Necessity for increasing the number of hospitals and dispensaries in the outlying parts of the State

3 Feasibility of extending medical aid through Ayurvedic and Unani institutions

4 Improving female medical relief throughout the State

5 A programme for the next five years and the advisibility of starting a Medical Faculty and re-organizing the Medical School

6. Question of adjusting the financial responsibility of Government Municipal Councils and District Boards in regard to medical institutions

7 Immediate requirements of the Department—additional medical staff needed in all grades and how to recruit them.

For a careful consideration of these and allied matters, Government are pleased to sanction the constitution of a Committee with the Senior Surgeon as President and with the following official and non-official gentlemen as members —

Dr Myivaganam, F R C S
Mr C S Balasundaram Iyer, B A, Chief Secretary to Government

Dr. Miss R. Govindarajulu, M.D.
Rajakaryaprasakta Rao Bahadur Mr. M. Shama Rao, M.A., retired Inspector-General of Education in Mysore.
Mr. S. R. Balakrishna Rao, B.A., LL.B., Member, University Senate.
Mr. Gulam Ahmed Kalami.

The Committee are requested to meet at a very early date to consider all the above questions thoroughly and submit their recommendations to Government within two months.

II.

REPORT OF THE COMMITTEE APPOINTED TO CONSIDER THE QUESTION OF MEDICAL RELIEF.

With reference to Government Order No. G. 17729-35—Med. 70-18-1, dated the 18th February 1919, we the members of the Committee therein constituted to consider the question of the adequacy or otherwise of the existing organisation for medical relief in the State and other allied matters, have the honor to submit the following report.

The Committee met in the office of the Senior Surgeon on the 15th and the 16th of April 1919. All the members (including Mr. M. Subbiah added to the Committee by G. O. No. G. 22014-15—Med. 70-18-2, dated 29th March 1919) were present, except Mr. Gulam Ahmed Kalami who did not attend.

We have duly considered the several points referred to us for consideration and our recommendations, based on the information furnished by the President and further elicited during the discussion, are as follows :—

1. Adequacy of the present organisation for Medical Relief.

We are of the opinion that the existing organisation for medical relief is not quite adequate and needs improvement. Excluding the Bangalore and the Mysore Cities, there are now 120 Local Fund Dispensaries in the State which are insufficient to meet the medical needs of the rural population. We recommend the opening of 110 new dispensaries during the next five years. We have carefully gone through the list of places where dispensaries now exist and of those where the opening of new ones is suggested by the Deputy Commissioners and the District Medical Officers of the several districts. Considering the area, population and the climatic and other conditions of the several localities, the 110 new dispensaries may be distributed as follows :—

Bangalore District	...	...	...	...	10
Kolar "	...	...	..	...	12
Tumkur "	...	...	...	...	14
Mysore "	...	...	...	...	17
Chitaldrug "	...	...	...	...	15
Hassan "	...	...	...	...	10
Kadur "	...	...	...	...	14
Shimoga "	...	...	...	...	18
		Total	...	...	110

To enhance the usefulness of the dispensaries at the important stations of Nanjangud, Seringapatam, Channapatna, Chikballapur, Davangere, Saklespur, Mudgere and Koppa, we think it desirable to post a Sub-Assistant Surgeon to each, to help the Assistant Surgeons now in charge, in doing major operations, and to increase the number of beds in these institutions to 10 or more according to local needs. Similarly, an extra Sub-Assistant Surgeon (a junior) may be posted to each dispensary in certain other places which have a large population or are considered to be important from a commercial or other point of view, the number of such places being limited to 20. The Committee would leave the selection of the places where new dispensaries should be opened and of those where extra Sub-Assistant Surgeons should be posted, to be made by the Senior Surgeon in consultation with the District Boards concerned. We futher think it necessary to develop the present hospitals in District Headquarters other than Bangalore and Mysore and to bring them up-to-date. It is also necessary to construct new and up-to-date buildings for the Lunatic Asylum.

2. Necessity for increasing the number of hospitals and dispensaries in the outlying parts of the State.

This point has been dealt with under point No. 1.

3. *Feasibility of extending Medical aid through Ayurvedic and Unani Institutions*

We think that the extension of medical aid through indigenous institutions is feasible if properly qualified Vaidyans and Hakims could be turned out from the training institution at Mysore, which, again, is possible only if competent Professors of the Ayurvedic and Unani systems of medicine become available.

4. *Improving Female Medical aid throughout the State.*

The provision, at each Taluk Headquarter, of a female dispensary in charge of a lady Sub-Assistant Surgeon, is an ideal which the Committee would recommend to be kept in view and worked up to, as qualified hands become available. Each such dispensary should be provided with two midwives, so that one may always be available for work at the dispensary when the other is called away to attend on labour cases outside. It is desirable to have Maternities at each district headquarter and to provide facilities therein for local *dayees* to undergo training in scientific midwifery. They should be provided with quarters in the premises and be granted liberal scholarships. The Committee are given to understand that this matter is already under the consideration of Government and that a beginning has been made in Shimoga. We would press for the early construction of an up-to-date building for the Maternity at Bangalore which should be shifted from the present antiquated building.

5. (1) *Advisability of starting a Medical Faculty.*

We think it is advisable to start a Medical Faculty at Bangalore in connection with the Mysore University, at a very early date, by establishing a Medical College, the cost of which works out, roughly, as follows :—

	Rs.
Initial cost, on buildings, *viz.*, lecture halls, physiological and other laboratories, museum, students' hostel, etc.	7,00,000
Furniture and equipment for above	1,25,000
Total initial cost ...	8,25,000
Annual recurring expenditure, when all the five college classes are working. Pay and Allowances to the Tutorial staff	45,100
Do to clerical and menial staff	6,000
Requirements of the laboratories and other contingencies ...	9,000
Total recurring ...	60,100

(2) *Re-organisation of the Medical School.*

This will follow on the establishment and development of the Medical College proposed above.

(3) *Programme for the next five years.*

If the work of opening the new dispensaries, the development or improvement of certain existing medical institutions, the improvement of the other existing medical institutions and the starting of the Medical College, be spread over five years, the work to be undertaken in each year will be—

	Rs.
I Year.—Opening of 22 L. F. Dispensaries—initial cost	4,04,000
recurring do	48,012
Improvement of 2 District Headquarter Hospitals and Female Dispensary (roughly)	60,000
One-fifth cost of construction of medical buildings, *viz.*, Lunatic Asylum, Maternity and Medical College, about	4,00,000
Working of the first year college class—about	15,000
Total ...	9,27,012
II Year.—Opening of 22 new dispensaries—initial cost	4,04,000
recurring cost for 44 dispensaries	96,024
Improvement of one Headquarter Hospital and Female Dispensary as above	30,000
One-fifth cost of new medical buildings	4,00,000
Working of two college classes	25,000
Total ...	9,55,024

	Rs.
III Year.—Opening of 22 new dispensaries—initial cost ...	4,04,000
recurring charges for 66 dispensaries ...	1,44,036
Improvement of a District Headquarter Hospital ...	30,000
One-fifth cost of medical buildings ...	4,00,000
Working of three college classes	35,000
Total ...	10,13,036
IV Year.—Opening of 22 new dispensaries—initial cost	4,04,000
recurring charges for 88 dispensaries	1,92,048
Improvement of a District Headquarter Hospital and Female Dispensary	30,000
One-fifth cost of medical buildings as above	4,00,000
Working of four college classes	45,000
Total ...	10,71,048
V Year.—Opening of 22 new dispensaries—initial cost	4,04,000
recurring cost of 110 dispensaries	2,40,060
Development of one District Headquarter Hospital and Female Dispensary	30,000
One-fifth cost of construction of medical buildings as above ...	4,00,000
Full working of the Medical College	60,000
Total ...	11,34,060

6. Question of adjusting the financial responsibility of Government, Municipal Councils and District Boards in regard to Medical Institutions.

The District Headquarter Hospitals are now being maintained entirely by Government and we think that this may be continued. As regards the medical institutions in rural areas the majority (4) of us are of opinion that, in view of the poor finances of most of the District and Municipal Boards, the Government may be pleased to bear the entire initial cost of dispensaries, and one-half of the total recurring charges, the other half being met by the local bodies. The opinion of the two dissenting members is that the Government and the Local Boards may bear the initial as well as the recurring charges equally.

7. Immediate requirements of the department.

As regards Medical Officers (Surgeons and Assistant Surgeons) we understand that the full sanctioned strength is now working and that in view of the improved pay and prospects recently sanctioned, recruitment to this class will offer no difficulty.

It is only Sub-Assistant Surgeons that will be required in large numbers, say, 25 to 30 every year, at least during the next five years, for the new dispensaries and to fill up the vacancies. The minimum pay of Rs. 45 recently fixed by the Government may not be inadequate to local candidates. But in view of the fact that for some years more we shall have to depend on qualified hands from outside, we recommend the raising of the minimum pay of Sub-Assistant Surgeons to 50 Rs. the minimum obtainable in the Madras service. We understand that Government have sanctioned 25 scholarships of Rs 15 each for male candidates and 4 of Rs. 20 each for female candidates to undergo training as Sub-Assistant Surgeons, and consider that this provision is ample for our requirements. It was represented that sufficient number of local candidates possessing the required educational qualification were not forthcoming in the last two years and to meet the difficulty, the scholarships might be thrown open to outside candidates also, preference being given to local candidates. We however, hope, that, in view of the rate of scholarship being raised to Rs. 15 and the improvement, in the starting pay of Sub-Assistant Surgeons, a sufficient number of local S. S. L. C. men will be forthcoming hereafter.

The pay and prospects of Compounders need early improvement and we recommend the early sanction of the scale proposed by the Senior Surgeon, when recruitment to this class will be easy.

The preliminary note read by the Senior Surgeon in opening the discussion of the several questions, is appended to this report, together with its enclosures.

APPENDIX 1.

NOTE BY THE SENIOR SURGEON ON THE SEVERAL POINTS REFERRED TO THE COMMITTEE, FOR CONSIDERATION, BY G. O. No. G. 17729-35—MED. 70-18-1, DATED 18TH FEBRUARY 1919.

1. *Adequacy of the present organisation for Medical Relief.*

Whether the existing arrangements for medical relief in the State are adequate, is a matter of opinion. While, from the popular point of view, the scope for increasing the number of medical institutions is very large, from an administrative point of veiw the question is purely one of ways and means. The following figures taken from the annual administration reports of the Medical Departments of the Madras Presidency and the Mysore State, for the year 1917, speak for themselves.

The Madras Presidency, with an area of 1,42,330 square miles and a population of 4,14,05,404, contains 707 medical institutions (indigenous institutions excluded) or one institution for every 201 square miles and for every 57,556 of the population. Mysore with an area of 29,461 square miles, and a population of 57,05,359 contains 174 medical institutions or one institution for every 169 square miles and for every 32,789 of the population. Compared with the neighbouring Presidency, therefore, the Mysore State has provided greater facilities for medical aid to its population.

The whole State is divided into 79 taluks (including the Jahgirs of Yelandur and Sringeri). The average area of a taluk is 373 square miles, which is equal to a circle of nearly 11 miles radius. Every taluk contains at least one dispensary, at its headquarter. There are 22 taluks containing two dispensaries each, 4 containing three dispensaries each, the taluks of Manjarabad, Sagar and Chikmagalur contain four dispensaries each and the taluks of Tarikere and Tirthahalli contain five dispensaries each. A districtwar and talukwar statement showing the names of places where dispensaries exist, is appended. Places where new dispensaries are proposed, are also shown in the statement.

2. *Necessity for increasing the number of Hospitals and dispensaries in the outlying parts.*

From the opinions furnished by the District Officers, the opening of new dispensaries is necessary in 10 places in the Bangalore District, 12 in the Kolar District, 14 in Tumkur, 7 in Mysore, 7 in Hassan, 6 in Kadur, 17 in Shimoga and 24 in the Chitaldrug District or a total of 97. It may be taken that the number of new dispensaries required is about 100.

3. *Feasibility of extending Medical aid through Ayurvedic and Unani Institutions.*

There are 9 indigenous institutions in the Bangalore District, of which 3 are in the Bangalore City and 6 in the taluks; 1 in the Kolar District, 5 in the Tumkur District; 11 in the Mysore District, of which 4 are in the Mysore City and 7 in the taluks; 3 in the Hassan District, 3 in the Kadur District; and 6 in the Shimoga District, and 6 in the Chitaldrug District. So long as the standard of training and the qualification of Vaidyans and Hakims remain what they are at present, it is a point for consideration, how far it is justifiable for Government to subsidise these indigenous institutions and authorise medical aid to the population through them. Some extracts from the "Indian Medical Gazette" regarding the indigenous system of medicine are appended.

4. *Improving female medical relief throughout the State.*

Under this head, the first place has to be given to the provision of help to women in labor. There are 19 midwives in the Bangalore District, 16 in the Kolar District, 14 in Tumkur, 27 in Mysore, 15 in Hassan, 18 in Shimoga, 14 in the Kadur and 11 in the Chitaldrug District, or 134 midwives in all, working in the State. If a midwife be attached to each of the new dispensaries proposed in paragraph 2 above, the total number of midwives will be 234. Government in their Order No. G. 7849-51—Med. 130-16-4, dated 29th October 1918, have sanctioned the grant of 1[illegible] scholarships of Rs. 15 each to literate women and 18 scholarships of Rs. 10 each to *Dayees* or women practising midwifery in the crude way. With the co-operation of the local Revenue authorities and of non-official gentlemen, if the required number of candidates of each class could be secured, 28 qualified midwives will be trained out every year, of whom 20 can be available for the 20 dispensaries to be opened every year for the next five years.

As regards general medical aid to women, there are at present, three well equipped Maternities at Bangalore, Mysore and Robertsonpet, six Female Dispensaries, one at each of the other six District Headquarters, with accommodation for a few beds, and one each at Sagar, Chikballapur, Tarikere and Tirthahalli. The total number of Female dispensaries

(including Maternities) now working in the State is 13. The establishment of female dispensaries at Davangere, Nanjangud and Chintamani is under consideration Female dispensaries, with accommodation for a few cases of confinement may with advantage be opened at Saklespur, Koppa, Mudgere and Kallukatte This will bring the number of female medical institutions to 20

5 *Programme for the next five years and the advisability of starting a Medical Faculty and Re-organising the Medical School*

So far as medical institutions are concerned, the programme for meeting the requirements noted above are, 100 new dispensaries, development of each of the six Female dispensaries at District Headquarters (except Bangalore and Mysore), the starting of seven new female dispensaries or dispensaries with provision for the admission of a few maternity cases To this may be added the improvement of the existing District Headquarter Hospitals (except those of Bangalore and Mysore) Spread over five years, the above work will mean, establishing 20 new dispensaries every year, development of at least one Civil Hospital and the connected Female dispensary, and the opening of two or three Female dispensaries, during each of the next five years

The cost of opening a dispensary works out as follows —

		Rs
Initial cost —Dispensary with in-patients' wards		11,000
Quarters for staff		6 000
Equipment—Europe medicines and instruments		1,000
Furniture, bedding and clothing		400
	Total	18,400

Recurring charges—			
Establishment—			
Sub-Assistant Surgeon,	Rs	45-70 or 57½	
Charge allowance	,,	10, 15 or 20

			Rs
		Total per month Rs 130½ or year	1,566
		Cost of Europe medicines	600
		Total recurring charges per year	2,166

The present distribution of cost of dispensaries is as follows —Of the initial charges the cost of buildings is met by State and District Funds in equal proportions, the cost of Europe medicines is met by Government and the cost of furniture, etc , by District Boards Of the recurring charges, the pay of the medical subordinate in charge and the cost of Europe medicines is met by Government, and the other maintenance charges by the District Boards.

	State Funds	District Funds
The cost for 20 male and 2 female dispensaries will be—	Rs	Rs
Buildings Rs 8,500 x 22	1,87,000	1,87,000
Equipment—Europe medicines, instruments etc., 1,000 x 22	22,000	.

Development of a district hospital and the attached female dispensary—roughly .	30 000	.
Total	2,39,000	.
Recurring charges for 20 male and 2 female Sub Assistant Surgeons (with sex allowance of Rs. 15 each) (57½ x 22+15 x 2) x 12	15,540	..
Other charges 73 x 12+22 . . .	.	19,272
Europe medicines 600 x 22 .	13,200	
Total .	28,740	.

The Medical School was started just two years ago and it will take another year to start the final year class or to have the four classes running together. Preliminary plan and estimates for constructing the necessary buildings have been submitted to Government and it may take some years before the work is actually taken up and finished. To start a Medical College, it will be necessary to have all the buildings and fittings ready. When a Medical Faculty may be instituted in connection with the local University and a Medical College started, has to be now considered.

6. Adjustment of financial responsibility between Government, District or Municipal Funds.

At present, the cost of constructing dispensary buildings and quarters to the staff is borne in equal proportions by the State, District and Municipal Funds in Municipal areas and by State and District Funds only, in other rural tracts. As regards equipment, the cost of Europe medicines and instruments (Rs. 1,000) is met from State Funds and the cost of furniture, bedding and clothing, Rs. 400, from District Funds or District and Municipal Funds in the ratio of 1 : 1, or 1 : 2, or 2 : 1 according to the financial position of the local bodies. As regards the recurring charges, the pay of the medical subordinate in charge and the cost of Europe medicines (about Rs. 600) is met from State Funds and the other charges are met by District Funds or District and Municipal Funds in the same way as the cost of buildings. How far either the Government or the local bodies may be relieved of any portion of their present share of the cost, has to be considered.

7. Immediate requirements of the Department.

Medical Graduates.—The sanctioned strength is 9 and only one is now available. Eight more are required. In response to an advertisement, five applications have been received and if three or four candidates out of those who may pass out this year are secured, the requirements will be met.

Sub-Assistant Surgeons.—The sanctioned strength is 190 against which there are now 180 working in the department, leaving ten vacancies. Of the four Mysore candidates that passed the final Sub-Assistant Surgeon's examination from the Royapuram Medical School, to have reported themselves. If the other two also report themselves, then six new hands have to be secured. One of the existing hands who has completed the seven year's service according to his convenant, has sent in his resignation. New applicants with the proper qualification, are not inclined to join although the Government have raised the minimum pay of the Sub-Assistant Surgeon's grade to Rs. 45. The local subordinate medical service will continue to be less attractive than that of Madras till the Madras scale of pay is introduced in Mysore in its entirety.

Midwives.—Sanctioned strength 159 and the number now in service is 145, leaving 14 pucca vacancies. There will be some difficulty in securing the number of qualified hands, as applicants often do not join after receiving order of appointment, on account of unwillingness to go to outlying stations.

Compounders.—Sanctioned strength is 171, number in service is 154, leaving 17 vacancies. If the scale of pay of compounders is raised to Rs. 15-18-21-25, as proposed, qualified candidates will be forthcoming. The present scale of Rs. 8-10-12-15, is too inadequate.

INDIAN MEDICAL GAZETTE.

MARCH 1919.

Indigenous Drugs.—We have in this issue and in that for February 1919 (*vide* also March 1918 number) published very interesting articles on the claims made by the supporters of the ancient Hindu systems of medicine, which will show clearly to any unbiassed mind that no Government could possibly entertain any scheme for the furthering of such a system in this modern world. A system, as Lieutenant-Colonel Sutherland writes, which "teaches that drugs and natural excretions long since rejected in other lands should be used to-day in the treatment of disease can only be called antiquated." A system which teaches that the semen of mice is poisonous, that scorpions are generated by cowdung and by dead snakes, that a physician can gather valuable information as to a patient's disease before he sees him by observing the complexion, gait and caste of the messenger used, cannot seriously be considered, and has no right to demand that public money be spent on its encouragement.

While, however, we all agree that neither time nor money should be wasted on such obsolete absurdities, we are strongly of opinion that the time has come—indeed has long arrived—when a serious and scientific attempt should be made to investigate the indigenous drugs of India, and no time should be lost in appointing well-trained pharmacologists to the new schools of Tropical Medicine in Calcutta and elsewhere to take up this important subject.

The War which has just ended has taught us many things and in India we have learnt the grave disadvantages of being too dependent upon other countries for the necessities of life and trade, and this has proved to be so in the case of many drugs and medical and surgical necessities.

We have before us a very useful pamphlet by Dr. J. C. Ghose, B.Sc., (Manchester), F.C.S., in which he makes a plea for the study of the indigenous drugs of India and for their scientific cultivation and manufacture in India.

* * * * * *

Drugs cultivation alone, however, is not sufficient, modern physicians tend more and more to give up the use of crude drugs and to use only the active principles, the physiological and therapeutic action of which can be established by experiment and by experience.

To do this in India necessitates the employment of trained and expert chemists.

We strongly commend this useful little pamphlet to the notice of our readers. There is much to be done, and the sooner the work is begun in India the better.

APPENDIX II.

NOTE ON THE AYURVEDIC MEDICAL COLLEGE SEPARATELY FURNISHED BY MR. S. R. BALAKRISHNA RAO, MEMBER OF THE COMMITTEE APPOINTED TO CONSIDER THE QUESTION OF MEDICAL RELIEF.

Ayurvedic College.

The College is now under the management of the Muzrai Department. The attention that is bestowed on it cannot be said to be adequate, the chief function of the department being the efficient administration of temples, mosques, etc. It appears as if the College is preserved more as an ancient institution, where time-honoured practices in the art of healing are encouraged than as a regular branch of the present day administration It is well-known that we cannot supplant the indigenous systems of Medical treatment, even if we multiply the allopathic dispensaries ten-fold or even hundred-fold. Nor do I consider it proper to so ignore the indigenous system as to eventually end it out-right. It does not require any elaborate pleading for the continuance and encouragement of this system. Without therefore dilating on the matter any more, I would recommend :—

(1) That the Mysore Ayurvedic College be placed under the administrative control of the educational department or the University.

(2) That the staff do consist of graduates in medicine who have had training in the Ayurvedic College in British India or who have studied Ayurveda in proper manner.

(3) That an indigenous medical service be constituted with a regular cadre and the same placed on a footing of equality to other regular departments of Government, so as to ensure to the candidates passing out of the College a decent start in Government service instead of the present uncertain employment by the District Boards and Municipalities.

APPENDIX III.

NOTES SEPARATELY FURNISHED BY DR. H. B. MYLVAGANAM, MEMBER OF THE COMMITTEE APPOINTED TO CONSIDER THE QUESTION OF MEDICAL RELIEF.

Ceylon, with a population of 4,632,384 on 31st December 1917, had besides a Lunatic Asylum and Leper Asylum in Colombo which are capable of accommodating respectively 514 and 406 patients, 84 Government Hospitals with accommodation varying from 12 to 665 beds. Of these, in Colombo alone one meets with the following Medical Institutions, *viz.*, (1) The General Hospital with 665 beds, (2) De Soyza's Lying-in-home, (3) Victoria Memorial Eye Hospital, (4) Grenier Ear and Throat Infirmary, (5) Lunatic Asylum, (6) Lady Havelock Hospital for women, (7) Lady Ridgeway Memorial Hospital for children, (8) Convict Hospital, (9) Infectious Disease Hospital, (10) Police Hospital, (11) Bacteriological Institute, (12) Leper Asylum, (13) Anti-Tuberculosis Institute and (14) Ceylon Medical College. These Hospitals were well equipped with modern conveniences and appliance and officered by qualified medical men, the larger ones also having a trained staff of nurses. In addition to these Hospitals, there were 441 central and branch dispensaries. Besides these, there were six other Hospitals in course of construction including a second Leper Asylum, in 1917. The Hospitals and Dispensaries in Ceylon are built, equipped and maintained by the Ceylon Government. All the medical men in charge of the Hospitals and Dispensaries are either Licentiates of the Ceylon Medical College which has existed for the past 50 years or men qualified in English Universities. There are no Sub-Assistant Surgeons in Ceylon.

But in Mysore State with a population of 5,705,359 we have only 174 Medical Institutions in all. Out of the 174 Medical Institutions, there are only 7 District Hospitals and 161 Local Fund Dispensaries, besides the hospitals at Bangalore and Mysore and the Minto Ophthalmic Hospital. Most of the officers in charge of the Dispensaries belong to a class of medical men indigenous to India, known as Sub-Assistant Surgeons. In the past, they have done useful work in the absence of a sufficient number of fully qualified medical men in India. As Mysore is a self-governing State, independent of British India, with enormous resources of its own, there is no longer any necessity to follow in the foot steps of the neighbouring Presidencies. Let us go a step further and follow the examples set by Ceylon and other British Colonies in their medical organization. Our district hospitals are badly equipped and officered. They have no staff of trained nurses to speak of. The officers in charge of these institutions are mostly incapable men. The number of men with European qualifications is very few in Mysore and we need more men with European training to be in charge of the District Hospitals. These hospitals require to be made more attractive and useful, by placing efficient men in their charge. Promotion by seniority in service has been the cause of retrogression in the past.

I earnestly suggest that we gradually replace the Sub-Assistant Surgeons with graduates or Licentiates in medicine as in Ceylon. It is only then that we can hope to give adequate medical relief to the people in the State. As the science of medicine has progressed by rapid strides during the past 20 or 30 years, it has become no longer possible to limit the curriculum of studies of the Sub-Assistant Surgeon class to four years. It is not possible to teach them all the important subjects within four years' time. Therefore the training must necessarily be inadequate. So, when these men go out into the world as medical men, they form very poor exponents of Western Medicine. It would therefore be more economical in the long run and more efficient, if we replace them with graduates whose curriculum of studies extends to 5 years or more.

The Ceylon Medical College has, during the past 50 years of its existence, been the back bone of its Medical department. It has not only supplied all the necessary recruits to the Medical department of Ceylon but has also supplied a good number of officers to the Straits Settlements.

If we are earnest in improving the medical organization of the State, the only course open to us is to start a Medical College at once. It will be the back bone of our Medical department and we shall never run short of recruits to our service. The best of our graduates could be sent to England for further training as is done in Ceylon. If my suggestion to replace the Sub-Assistant Surgeons with graduates in the course of time, is accepted by the Government, then we shall require all the graduates we turn out for the next 20 years or so, for our own medical service. The question of expenditure should not stand in the way of improving our medical service.

The State is urgently in need of a Medical College to train our men to take charge of our hospitals and dispensaries and the longer we delay in making up our minds, the worse it will be for the future welfare of the State. I have always contended in and out of season that economic procress of the State for which we have spent lakhs of rupees in the past will result in no benefit to the population if we neglect their health. Their very vitality is being

undermined at present for want of timely medical relief and their earning capacity is thereby reduced to a minimum. Instances are not wanting in malnad districts where malaria and anchylostomiasis are playing havoc and are sapping the vitality of the inhabitants. The peoples of the State appreciate Western Medicine in preference to the indigenous systems of medicine as is evidenced by the large number of patients who seek medical advice in all the large and well-equipped hospitals of the State. If the people in the villages and taluks don't take kindly to Western Medicine, the fault lies on our part in not providing them with efficient men and well-equipped institutions.

The Mysore University Senate and the present Committee are unanimously in favour of a Medical College to be established in Bangalore. In the absence of a suitable building to start a Medical College on a large scale, we shall be able to make a small beginning with 20 students just now with the accommodation available at present in the temporary Medical School and in the Dissecting Room newly erected for the Sub-Assistant Surgeon's Class, with a little inconvenience. There will be no difficulty for the first two years. The first year class in Physics, Chemistry and Biology will be held in the Central College and Anatomy in the present Dissecting Room. In the second year, an additional class in Physiology can be held in the present Medical School, and the necessary equipment will not be much, considering the limited number of students proposed. In the meantime, a suitable building for a Medical College will have to be erected in the site already selected. The probable sum required for the building and equipment and the recurring expenditure are mentioned in the Committee's report. We would require a Professor in Physiology for the second year as we have no suitable men in our service to take up that subject. The subject for the 3rd, 4th and 5th years will necessarily have to be taught in the wards except Pathology and Bacteriology and Hygiene which require well-equipped laboratories. In this connection, I wish to point out the urgent need of an up-to-date Bacteriological Institute and Public Health Laboratory for the State, officered by qualified men, competent to make original investigations in tropical and other diseases peculiar to India. We have enough materials for such research works in our midst, but alas, we are sadly wanting in men to undertake the work. We have no experienced and competent men at present, we can prepare vaccines and sera for the treatment of cases requiring such therapy. We require a man with an established reputation for such work, to be placed in charge of the Bacteriological Institute. He would be of great help to the Medical College in the 3rd year.

In my report to the Senate, I have also made provision to train our students for the Degree of Bachelor of Hygiene. The Sanitary Department of the State requires expansion and the Medical College will be able to supply thoroughly trained men for the work in future years. During the last epidemic of Influenza, our Sanitary Department proved quite inadequate for the task. No effort was made by them to investigate into the causes of the epidemic. Their method of treating Cholera is quite antiquated. The number of sanitary officers in the department is not adequate to meet the requirements of the State, especially in times of severe epidemics. The Sanitary Department of Ceylon consists of a senior Sanitary Officer, one junior Sanitary Officer, two Assistant Sanitary Officers, 109 Sanitary Inspectors, a Sanitary Engineer, a Sanitary Superintendent and coolies. I mention these facts relating to the Sanitary Department as they are intimately connected with Medical Department and the medical training institutions present and prospective.

As the initial expenditure for the first two years is not a large sum, I earnestly request the Government to start a Medical College in July next. It takes 5 years to turn out a graduate and the sooner we start one the earlier we shall get our men for work. If a Medical College is started at once, there will be no need to re-organise the Medical School as the same Professors will be able to teach the Sub-Assistant Surgeon side by side with the M. B. Students as was done in Madras before the Royapuram Medical School was opened. Even now the Military Assistant Surgeons attend the same classes as the M. B. students. But if the Medical College is likely to be delayed, then I would urge that more scholarships be given to Sub-Assistant Surgeon students and the allowance to the lecturers be increased to Rs. 100 per mensem and that of the Principal to Rs. 150. The present allowance is very small considering the number of hours spent in preparing the subjects and in lecturing to the students. A building for the Medical School and a Hostel is urgently required. The students at present are undergoing very great inconvenience for the want of suitable hostel arrangements. They are obliged to board and lodge amidst unhealthy and undesirable surroundings and are unable to get suitable meals at proper time. A hostel for them is urgently needed. A suitable building could be rented near the Hospital on a moderate monthly rental, if permission is granted.

The Ayurvedic and Unani systems as practised at the present day do not form systems of medicine but a system of pharmacy These systems of antiquity may have done some useful work in the past when the Western medicine was in its infancy, but they have long ceased to progress. The extreme conservatism of the Vaidyas to impart their knowledge to others had been the cause of retrogression. Many valuable drugs have been entirely lost to

the world with the death of those successfully practising them at one time. But many of the drugs used by the Vaidyas of the present day, in a crude form, are used in the Western Medicine in the form of alkaloids and salts of the metals in smaller and effective doses. They have no books on Pathology, Physiology, Anatomy or Bacteriology. The surgery practised in ancient times was very crude. To attempt to revive these ancient systems is a profitless task associated with many difficulties and we shall be setting back the hands of the clock to some centuries behind. But it would be profitable if we should scientifically investigate the indigenous drugs of India by appointing well trained Pharmacologists in connection with the Medical College or the Indian Institute of Science at Bangalore.

The immediate requirements of the Department are as follows:—

(1) A new Maternity Hospital near Victoria Hospital, with modern conveniences and appliance and officered by a highly trained Lady Doctor. A ward for treating children may be attached to it.

(2) The same for Mysore.

(3) A Lunatic Asylum in a suitable locality to accommodate at least 300 patients.

(4) A well equipped Bacteriological Institute on modern lines with facility to manufacture vaccines and sera on a large scale for the use of the State and to conduct original research work. We have not a single competent man at present in the Sanitary Department to undertake this useful and all important work. We should import a man with an established reputation to conduct research work and offer him a decent salary. To depute a raw recruit to England to study advanced Bacteriology and Pathology and to expect him to conduct research work on his return with profit to himself and others, is a matter of doubtful expediency. One must have sufficient aptitude for research work. Therefore if we can get a man with an established reputation at the onset, we shall be able to train our men under his supervision. It takes years of patient study to acquire that amount of knowledge requisite for research work. A sojourn of a few months in England and the passing of the D. P. H. Examination do not confer the necessary training for this kind of work. I mention the urgent need of a Bacteriological Institute in this report, because we require the co-operation of a Bacteriologist for diagnosing some of our cases by the examination of blood and other excretions of the body and to prepare vaccines for suitable cases.

The present building is an old chattram not suited even for lunatics. A medical man qualified in mental diseases should be placed in charge of it. The present methods of placing any and every one in charge of the lunatics, because they are lunatics, is a retrograde method. It is not at all fair to these unfortunate patients. We should depute an officer to proceed to England to study mental and nervous diseases and on his return he should be placed in charge of this institution.

(5) The accommodation at the Victoria Hospital is quite inadequate to meet the evergrowing demands. Many urgent cases have to be admitted with great inconvenience to others and some times bordering on overcrowding, for want of accommodation. At present there is only accommodation for 140 patients. At least we require not less than 250 to 300 beds at an early date.

(6) An isolation ward to isolate all suspicious cases of fevers and to treat such infectious diseases as enteric fever, diphtheria, etc., has been a long felt want. At present these cases have to be treated side by side with other non-infectious cases which is not at all desirable and not fair to other patients.

We want a well qualified physician to take charge of the Medical Wards at the Victoria Hospital. The present method of placing inexperienced Assistant Surgeons in charge of the medical wards is not at all satisfactory and not in the interest of the premier hospital of the State. We are living in a progressive age and we should march with the times. A man with the diploma of the membership of the Royal College of Physicians (London) or M. D. London is desirable and dignifying to a hospital like the Victoria. All the physicians in Colombo possess these qualifications.

A Pathologist with the additional knowledge of advanced Bacteriology and Tropical disease is urgently required for Victoria Hospital. At present, the important work of the Pathologist is entrusted to Sub-Assistant Surgeons with the most elementary knowledge in the subject. Their diagnosis in many instances is unreliable. All well equipped hospitals, in the civilised world, are provided with *able pathologists*. He forms the back bone of the hospital and his help is eagerly sought after by the physicians and surgeons. An officer may be deputed to England to study these subjects. A similar officer is also required for the Mysore Hospital. A dental Surgeon and a specialist for ear, throat and nose diseases are also required for the Victoria Hospital as well as the Mysore Hospital. We may depute four of our men to study these subjects.

(7) The present Leper Asylum where these unfortunate patients are being treated is a dismal looking and a dingy building. There is hardly any equipment worth speaking.

A new building with accommodation for a large number of patients is required. The building should be outside the Infectious Disease Hospital. At present this Asylum is located within the Magadi Camp where all forms of infectious diseases are treated. The lepers require better attention than what they are receiving now. The treatment adopted is very antiquated. The modern methods of treatment are not followed. The dressings used are dirty bandages and cotton soaked with morgosa oil. I noticed this unsatisfactory state of affairs when I once visited this hospital in October last.

(8) *A home for incurables.*—At present all incurables from the Victoria Hospital are either sent to the Magadi Camp or are taken away by the relatives of the patients to their homes. The unfortunate ones who have no home comforts prefer to go to Magadi Camp, but they don't find a bed of roses there for them. The condition in which I found them in October last was a pitiable one. These unfortunate patients go there to spend the rest of their days suffering from ailments beyond the reach of science and it is the duty of the City Municipality to provide a fairly comfortable home for them to make their life tolerable and happy. The people who talk of civic and social duties on public platforms may usefully direct their energies in this direction. It is the duty of the philanthropic public who speak of civic duties and social service to provide for the comfort of these miserable fellow citizens. In the absence of such help coming forth readily, the City Municipality or the Government may take up this subject.

In the main report we have mentioned the number of medical men required for expanding our department during the next five years. But they are meant for district work. In addition to that number, we require a few more for special work in Bangalore. I propose that we engage the services of two thoroughly qualified men with the requisite English degrees or diplomas to fill up the post of the Physician to the Victoria Hospital and the Director of the Bacteriological Institute. To send an officer to England to pass the M. R. C. P. (London) Examination will not only take lot of time and money but after all one may not be sure of the success of the candidate as the examination is a difficult one. It would be cheaper to engage one who has already passed it. One who has passed the M. R. C. P. Examination will also be competent to teach Physiology, in our Medical College when it is started.

For the Directorship of the Bacteriological Institute, we require an officer who has already established a reputation for research work.

Barring these two important posts, the rest may be filled up with our own men trained for a definite period in England. These are two Dentists, a Specialist in ear, throat and nose diseases, two Pathologists for Victoria Hospital and Mysore Hospital, and a Specialist in mental diseases for the Lunatic Asylum. The appointment of a highly qualified Lady Doctor for the Maternity Hospital when the present incumbent retires has also to be considered now. Such an officer will be urgently required for lecturing at the Medical College in midwifery and diseases of women and children. If we can equip our hospitals in Bangalore on these lines, we shall need no outside help for the future Medical College and we shall be able to run it on modern lines with great success.

In my opinion the pay of the Sub-Assistant Surgeons should be raised to the Madras standard, *viz.*, Rs. 50 to 120. Otherwise it will be difficult to obtain recruits for our service. There is much discontentment and heart-burn among them and the sooner their pay is increased the better would it be for the department.

APPENDIX IV.

NOTE SEPARATELY FURNISHED BY MR. GULAM AHMED KALAMI, MEMBER OF THE COMMITTEE APPOINTED TO CONSIDER THE QUESTION OF MEDICAL RELIEF IN MYSORE.

Submitted through the Senior Surgeon.

I regret that sickness in my family and other inconveniences prevented me from attending the meeting convened by the Senior Surgeon on the 15th of April 1919 in pursuance of the Government Order No. 17729-35—Med. 70-18-1, dated the 18th February 1919. When I called on the Senior Surgeon subsequently to apologise for my unavoidable absence, I was rather surprised to hear that the committee sat not only on the 15th but also on the 16th April 1919 and that its report was prepared and submitted already. At my request however the Senior Surgeon was pleased to let me have a copy of the report together with the note he had placed before the committee when it met to consider the several points raised in the Government Order above named.

Hoping that even at this stage my observations and suggestions may be of some little use I venture to submit them for the consideration of the Government.

1. *Adequacy or otherwise of the present organisation for medical relief in the State.*

2 *Necessity for increasing the number of hospitals and dispensaries in the outlying parts of the State.*—I agree with the remarks and recommendations made by the committee in their report under the above heads. I may say in addition that until and unless our Sub-Assistant Surgeons are paid the same graded salaries as are allowed in the Madras Presidency, there is no chance of avoiding vacancies, keeping up sanctioned establishments and providing for the necessary reserve. The general tendency of the present times to increase the number and emoluments of highly paid officers and to overlook the oft-repeated grievances of the subordinate staff is proving itself highly detrimental to the interests of efficiency and good Government.

3. *Feasibility of extending medical aid through Ayurvedic and Unani institutions.*—In view of the past experience and the well known popularity in the country of both the Ayurvedic and Unani systems of medical treatment, they should be whole-heartedly and effectively encouraged and supported by the Government. No matter what the opinions of the European Surgeons and Physicians are in the matter of entertaining or not entertaining any scheme for the furthering of our indigenous systems, I think it is the duty of an Indian State like Mysore to make all possible efforts to extend medical aid in the province through Ayurvedic and Unani Institutions also.

To increase, as it is necessary, the number of qualified Vaidyans and Hakims practising in the State, Government may be pleased :—

(1) To take advantage of all the decently managed and fairly well equipped Colleges and schools that now exsit in India ;

(2) To gradually increase the number and value of the scholarships or stipends now given to the students of these systems of treatment ;

(3) To select an increasing number annually of promising Vaids and Hakims resident and practising in the various parts of the province and send them over to approved Ayurvedic and Unani Colleges in India for education and training, giving them liberal stipends for their maintenance during the period ;

(4) To select a number also of fairly well educated young Mysoreans and grant them tempting scholarships to join such institutions and get themselves fully qualified and certificated.

Note.—The above scholarship-holders and certificated Vaids and Hakims should be bound by agreements to settle down in the State and start their practice. They must also agree to serve the Government for a fixed period *if called upon to do so.* When so employed they should be eligible to get the same salaries, grade and allowances as are given in the State to the Sub-Assistant Surgeons.

Until the number of properly trained, qualified and certificated Vaidyans and Hakims becomes appreciably large, even experienced and popular Vaidyans and Hakims now enjoying extensive private practice in the various parts of the State and commanding public confidence should be encouraged and enabled by the Government to further widen the scope of their usefulness by instituting a grant-in-aid system on the lines now in vogue in the Educational Department. This grant-in-aid system will keep them under official discipline and supervision and bring them into direct contact with the Medical Officers of the Government and enable them also to continue their good work under healthy and inspiring influences.

Before the Government proceeds to reorganise and improve the efficiency of the existing Ayurvedic and Unani Hospitals or Schools maintained by the Government or the Local Boards or the Municipalities, I would strongly recommend the selection and deputation of several willing and suitably educated Sub-Assistant Surgeons in the State service of not less than five years standing to join approved Ayurvedic and Unani Colleges in India and study the respective systems thoroughly. This arrangement will prove a great source of improvement of the indigenous system of Medical aid and also become the means of wholesome encouragement to the Ayurvedic and Unani Institutions which are now depending for their support mainly on public enterprise. Such Sub-Assistant Surgeons, when they return to State service after their training in the Ayurvedic and Unani Colleges, may very well be employed to be in charge of the State Ayurvedic and Unani Dispensaries, or may be entrusted with the duty of inspecting the Grant-in-aid institutions and extending the system of State aid to Vaidyans and Hakims who have an appreciable amount of private practice.

Selected Medical Officers of higher grades and qualifications also may be deputed to undergo the same kind of training and eventually undertake research work in a scientific manner.

The ever increasing usefulness and popularity of the Ayurvedic and Unani Dispensaries located at Mysore City and maintained probably by the Municipality cannot be disputed. The Government will do well to take over these Hospitals and improve their condition with a view to make them model Institutions. If this is not considered advisable the Municipality

of Mysore may be given a special grant for the better equipment and general improvement of these hospitals It is also necessary that such Ayurvedic and Unani Dispensaries should be immediately established in the City of Bangalore either by the Government or the Municipality

I need not emphasise the fact that the total cost of the above schemes for the extension of the medical aid through indigenous institutions will be very small compared with the amount of good that is expected to accrue thereby to the people of Mysore

4 *Improving female medical relief throughout the State*—I agree with the remarks and recommendations made by the Committee

5 (i) *Advisability of starting a Medical Faculty*—(ii) *Re-organisation of the Medical School*—I am not sure that it is necessary to start "at a very early date" a Medical Faculty in connection with the Mysore University What we urgently need is the education and training of an adequate number of Sub-Assistant Surgeons I cannot therefore see why the re-organisation and improvement of the medical school should not precede the starting of the Faculty of Medicine The annual cost per head of educating the required number of Mysore students in any of the medical *Colleges* in India and for the matter of that even in the Universities of Europe may not exceed the cost per head which will accrue in the event of our starting a Medical Faculty in Mysore Over production by our University of the higher grade of medical men may benefit individuals hankering after city life both inside and outside the Mysore State, but it is not the immediate want of the masses in our province I am not against the addition of the Faculty of medicine to our University at its proper time, it is just now a question of ways and means

(iii) *A programme for the next five years*

Without prejudice to my remarks under the heads i and ii I agree with the programme of improvements suggested for the next five years

7 *Immediate requirements of the department*

I fully concur with the views expressed and suggestions made by the committee under this head
